

MEET THE DE VEYRA FAMILY!

They Are Putting the Philippines on the Map in Washington

Hon. Jaime C. de Veyra, Who Has Just Been Re-elected as Philippine Commissioner to the U. S.

Mrs. Jaime C. de Veyra. She is Doing Important Work for Her People in America.

THE CHILDREN OF THE PHILIPPINE COMMISSIONER. The Baby of This Group Speaks Three Languages—Visayan, Spanish and English.

Permit us to present the De Veyra family.

The Hon. Jaime C. de Veyra is the Resident Commissioner from the Philippine Islands to the United States and has just been elected to a second term of three years. As Resident Commissioner he has a seat on the floor of the American Congress, the privilege of taking part in debates, although no vote.

Commissioner de Veyra has an interesting wife and four bright Filipino kiddies. The De Veyra family, individually and collectively, constitute the best argument as to the tact and capabilities of Filipinos that the Philippine Islands have in Washington.

The commissioner is a 100 per cent Filipino, a Visayan, and is one of the foremost leaders of the party in power in the islands. During American occupation he has been successively governor of his province, member of the Philippine legislature, cabinet member and executive secretary of the islands.

Like many statesmen of the Philippines, he was originally a newspaper man. He was one of the founders of *El Nuevo Dia* of Cebu, the first Filipino paper published advocating Philippine independence. The paper came under the censorship of General McIntyre, and on the appearance of the first number the editors were left in the singular position of seeing every prominent article blue penciled.

Mrs. de Veyra, like her husband, is a "live wire" in the Philippines' cause. She is the best known Filipina in America. She is an interesting public speaker and is constantly giving illustrated lectures at women's clubs and other gatherings. Mrs. de Veyra is a publicity bureau all in herself and has put the Philippines on the map, so far as the women folk of Washington congressional circles are concerned.

"I find that the Filipino people have been much misrepresented in the United States," says Mrs. de Veyra. "I do not mean to infer we are perfect, for we are not. My people have most of the defects, I suppose, that other humans have, but at the same time we are far from the people that many Americans have been made to believe. Not only are we a Christian people, but our race has a history that we are not ashamed of. Throughout the Philippine Islands the people are now working earnestly to improve themselves and their conditions so they will be prepared to take over their own affairs. We all love America for giving us a chance to help ourselves and for having promised us our independence, which is one of the dearest desires of the entire citizenship of the islands."

To American women whose ideas of Filipinos have been founded on Sunday supplement descriptions of wild tribes, Mrs. de Veyra's gentle manner and evident culture have been a revelation. She is sought by women's clubs because of her charming manner as an impromptu speaker on the subject nearest her heart—the women of her country.

At a recent Washington gathering she gave in perfect English a concise account of the work of a woman's club in Manila which supplies milk to the babies of the poor and trains mothers to care for their young children. She told of another woman's club which has branches all over the Philippine Islands and which maintains day nurseries for the children of the working women, provides Christmas cheer for the lepers, the insane and the convicts, and gathers data to influence legislation for the benefit of Filipino women and children.

The four little De Veyras, shown in the picture, having attended the public schools in Manila, slipped right into the same grades in the schools of Washington. Even little Mary, the baby of the family, speaks three languages—her native tongue, Spanish and English.

What's become of the prejudice against automobiles because they frightened the horses

NOW cars are everywhere. The horses have gotten used to them—and so has everybody else. Think of it! This year the American people will spend nearly a billion dollars on tires alone.

Tires are one of the biggest items on the car owner's bills.

Hardly a Saturday, when you motorists drop in to "tune up" for a Sunday trip, that one or more of you doesn't tell us something of value to our business. Sooner or later it comes back to you in Service.

Service is what the car owners of this community are looking for nowadays.

And especially the small car owners, who put service

first in figuring their motor-ing expenditures.

Just because a man has a moderate-price car is no reason why he should get any less service out of his tires.

We believe that the man with the small car is entitled to just as good tire service as the man with the big car—and both are entitled to the best tire service they can get.

That's why we represent U. S. Tires in this community.

And why more car owners—large and small—are coming to us every day for U. S. Tires.

Come in and talk to us about tires. We're here to help you get the kind of tires you want.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.

"PLAY BALL!"

They can do it the year around in the Philippines.

Here's indisputable evidence that the Filipino people have been Americanized! The great American game of baseball is the rage in the islands. This photograph shows a parade which preceded one of the big games in Manila. Baseball is played from one end of the archipelago to the other, and, as in other tranches of athletic sports, some classy players have been developed.
