The mill was "hung up" for two

**How Are You Going to Keep Them
Down on the Farm?**

Your growing boy, the restless farm hand, how
are you going to keep them down on the farm?
The ever present city job is always beckoning.

Machines have been a powerful factor in stemming the tide to the city.
They banish farm drudgery and make work interesting. They foster
a boy's love of mechanics and appeal to the worker because they help.
Machines build fortunes.
