The bulge in the wheat market brought out some 40,000 bushels which were disposed of Saturday to local dealers. Wheat advanced to \$2.33 the first of this week, but later dropped in sympathy with the Chicago market.

Because of a dearth of masculine hands, women and girls have been helping with the mountain harvest.

Mrs. Lillian Fredericks is in receipt of a message from Hot Lake stating that her father, Geo. W. Proebstel Sr., underwent a quite serious operation at the Phy sanitarium one day last week. His condition at the present time is regarded as hopeful.

Mrs. Wilma Minnick, daughter of Mr. and Mrs. John DuPuis of this city, was united in marriage Monday to Mr. William Kupers of Pendleton. The ceremony took place at the home of Mr. and Mrs. L. L. Rogers.

The local drama club has ordered from the state library certain study books covering the course in Modern Drama, beginning with the nineteenth century.

Mrs. E. M. Warren left last week for an extended visit at the home of her son and daughter, Mr. and Mrs. Sidney Warren, at Pendleton.

Mrs. Nancy A. Jacobs, one of Oregon's most estimable pioneer women and the only survivor of the Whitman massacre, was here Saturday from Portland, visiting Mrs. I. E. Saling and other friends.

Mrs. J. C. Davis was brought in from the farm Sunday and is at the home of her son, Claude Davis. She is slightly better, after a serious illness with pneumonia.

The local lodge of Odd Fellows has resumed its regular meetings and will continue them through the fall and winter.

George A. Lindeken, recently of Valentine, Nebraska, has taken over the dray business of G. G. Ellis. Mr. Lindeken has also purchased the Mrs. Marsh cottage which will be occupied by himself and family, and the Lovelidge barn near the fire station. He says he likes the town and is glad to be identified with it.

Mrs. W. S. Payne was absent during the first of the week on a visit to her sisters at Walla Walla.

Saturday was an especially busy day with local merchants, indicating Weston's popularity as a trading point. The day's volume at the establishment of Jones & Jones alone reached a total of \$1071.41. They sold three Van Brunt drills and a small bill of lumber, the remainder being general hardware.

Mrs. Sylvia Benn, Miss Louie Beathe and Miss Pearl Beathe arrived Sunday from Seattle for a visit with relatives and friends in Weston.

Recent heavy rains again delayed the mountain harvest, which had just fairly begun. Bright weather this week, however, was matched by the smiles on the faces of the mountain farmers, who will suffer little loss if they are only given time by old J. Pluve to get their crops in the sack. Merritt A. Baker, local weather observer, reports the total precipitation since the first of September as 1.04 inches. The rain Sunday afternoon reached almost the proportions of a cloudburst in the Downing and Dry creek neighborhoods, and would have done a world of damage a few

weeks ago. Hailstones were piled up in places to a depth of several inches and chickens were killed in the barn yards. A quarter section of wheat belonging to Sim J. Culley was at the edge of the storm area.

Lowell (Dutch) Hyatt came down this week from La Crosse, Wash., accompanied by Walter L. Hogan. Walter was Lowell's shipmate on the Lincoln when that luckless transport was torpedoed by a Hun submarine. It will be remembered that Lowell learned to swim on that memorable occasion. He had to swim, in order to escape the far froth attractive society of McGinty and the mermaids. The boys have lately been navigating a sea of wheat in the La Crosse country, where Lowell has been piloting a combine. He says the crop up that way ran from 18 to 30 bushels per acre.

Henry Thompson is a patient at Hot Lake sanitarium. Mrs. J. E. Jones went to Gibbon this week to visit Mrs. Thompson during his absence.

Eph Tucker's upland wheat crop is reported to have averaged better than 47 bushels.
