A Growsome Find.

It is reported that the remains of a dead man were found Wednesday on Dry creek at a point above the trestle fill, by workmen who have been excavating for a state highway rock quarry. Also, according to reports, the county coroner was notified and has taken charge of the body. It was found, the story goes, at a depth of a few feet. Not a scrap of clothing was disinterred, nor anything else that would serve to identify the remains. The skull had been crushed, and appearances indicated that the unfortunate man had been murdered, stripped of his clothing and buried.
