FRIDAY, APRIL 1, 1921

Entered at the postoffice at Weston, Oregon
second-class mailmatter.

When the nations have made scrap of the battlefields and cannon they will not necessarily have abolished war, says the Saturday Evening Post. Men may fight with staves and slings. But they will have lightened the tax burden, and that is one end sought. Let future wars, if there be, forge the tools for their own slaughter. If nations are disarmed they will have an even start at the ghastly business. Let men who love argument discuss the good and evil of war. They have all of eternity in which to settle the question. Meanwhile, let those who do not love taxes reach an agreement concerning disarmament, for here is a present evil, a grievous burden gratuitously borne, a punishment inflicted by stupidity.

Per capita consumption of tobacco in the United States has risen from two pounds annually at the close of the civil war to eight pounds annually at the present time. Also, we think we have read somewhere that "the weed" costs the nation more than higher education. There ought to be a law against women smoking.

Perhaps Bergdoll's punishment will fit the crime if he is merely compelled to stay in Germany.

Attend the council meeting next Wednesday evening and help the fathers with the financial problem having to do with the city's share

of street improvement. Every taxpayer and every citizen is directly interested.

Farmers in Pacific Northwest commonwealths have so far signed up twenty-three million bushels of wheat to be handled by the wheat growers' association. The association presents an attractive plan which is gaining converts daily.

At least we haven't been "April fooled" by the weather man. Today's brand is delightful, and unites with the witchery of greening field and budding flower to give new significance to the expression, "Joy of Living."

The news that \$132,227.88 will be expended on market roads in Umatilla county, one-half by the county and one-half by the state, shows that once in awhile the honest farmer gets his innings.

H. G. Wells predicts the collapse of world civilization unless all Europe unites into one family of states. Let's be tanning a skin suit and shaping a stone hatchet.

"Still another reason why men do not go back to the farm is their wives," says the Washington Post. It is also the biggest reason why men go away from the farm.

No publication circulating through the grain belt has cost its subscribers more than Editor Pickell's Rosenbaum Review. Mr. Pickell has qualified as an unprofitable prophet.

"If any woman had all the clothes she wanted, the rest of the women would have to go around in barrels," says a misogynist who writes for the Sugar City (Colo.) Gazette.

If you have objections to bonding the City of Weston for street improvements, the time to voice them is next Wednesday evening at the council meeting.

More than two thousand show girls have been thrown out of work

in London; and no opportunity is left for the creatures, even, to do any kicking.

The railroads of the country are a positive disappointment. They aren't even able to meet operating expenses, pay high wages, reduce rates and give good service at one and the same time.

By judicious use of the well-known "bean shooter," reformers could do a lot toward discouraging the indecent exhibitions on the Parisian stage.

These are times when the busy man is reminded of a question current in the halcyon days of his youth: "Whatchu rather do er go fishin'?"

"While the savage red man lived in a wigwam he paid no rent; why then was he savage?" pertinently inquires the Chicago Daily News.

Our Blue Mountain leagus ball games may not be quite so classy as the major league article, but there'll be no bribery scandals.

Ex-Emperor Charles, desperately seeking restoration to the throne of Hungary, is qualifying as the pest in Budapest.

Germany is seemingly less disturbed over the revolt she is trying to put down than the reparations bill she isn't trying to put up.

If Portland succeeds in raising that \$850,000 for charitable purposes, she may be pardoned for indulging a community chesty feeling.

The Gilmer (Tex.) Mirror opines that "the lure of the hose in the city drives men from the hoses in the country."

Our notion of downright futility is a special session of congress to pass that "emergency" tariff bill.

Greeks Advance Into Turkish Territory
Constantinople. — The Greeks are making notable progress in their offensive against the Turkish Nationalists, according to word received here. The Turks are withdrawing slowly into the mountain fastnesses defending Eski-Shehr and Afium-Karahissar, where they are expected to make their final stand, unless they are able to hold the Greeks in the treacherous passes in the valleys.

Diplomatic Aides Must be Americans.
Washington, D. C. — Heads of all American diplomatic missions have been notified by the state department that they must get rid of all non-American attaches by July 1. The full Americanization of embassies and legations was provided for in the last diplomatic appropriation measure.

Communists Met By U. S. Forces.
Coblenz. — A communist uprising occurred Monday morning in the American bridgehead area at Montabaur, six miles northeast of Ehrenbreitstein. A riot call was answered by the provost marshal and American military police were dispatched to Montabaur to restore order.

The peak population at the Oregon state penitentiary for several years was reached Friday when, with the arrival of three Chinese gunmen from Portland, the enrollment swelled to 345. On September 15, 1919, the inmates of the prison numbered 243, showing a gain of 102 during the last 18 months.

SCHOOL NOTES

For the first time in two months all her youngsters were in attendance Wednesday in Miss Rintoul's room—an encouraging sign that the chicken pox epidemic is about over.

Prof. Fitzpatrick is in Spokane this week, attending the 23d annual session of the Inland Empire Teachers' association.

The "jinx" that pursued the captain of the high school nine last year has appeared this year by Captain Bulfinch's side. During a recent practice game he had a finger-nail torn out, necessitating his removal to right field. Snider will now receive for the pitcher. Last year Eugene Smith, the captain, slid into third and came out with a fractured shoulder blade.

Not yet in form and deprived of the services of its regular catcher, Weston High played ragged ball in a practice game Wednesday with Athena High on the latter's diamond. Athena won by a 36 to 6 score.

A recent remark from Mr. Fitzpatrick has given the bunch many dire forebodings. "If I were going thru high school," he told his arithmetic class while discussing insurance, "I would certainly have my life insured." Whether he fears we may fall down those 53 steps some day or contemplates some severe form of chastisement, is a matter of much weight in high school circles.

The high school baseball suits arrived last Monday and were pleasing in both appearance and wearing qualities. They are tan and green, with large green W. H. S. letters across the front.

Rock Will Play Ball—Local Line-up

Pilot Rock has agreed to sign up for baseball again in the Blue Mountain league, completing the six-team circuit. This action was taken last evening at a big baseball meeting at the Rock, attended by delegations from other towns comprising the league circuit.

Cars owned by Mayor Jones and Lyle Webb were placed at the disposal of Weston fans, eight of whom attended the meeting. In the party were R. L. Reynaud, Ed. L. Wood, L. B. Davis, F. G. Lucas, Kendall Smith, Otis Gould, Mayor Jones and Lyle Webb.

The Weston team has received part of its equipment, including some excellent bases manufactured by Chas. Schaaf of Pendleton. From the players who have so far shown up for practice the following tentative line-up has been selected by the team manager, Ed. L. Wood:

G. Blomgren, catcher; S. Kennard and N. O'Hara, pitchers; R. Smith, first base; O. Gould, second base; R. Beamer, third base; H. O'Hara, shortstop; H. Johnson, left field; J. Kirkpatrick, center field; K. Smith, right field.

Spring Farming Operations.

Farmers are now taking full advantage of the bright weather to do their spring plowing and other work, and the fields throughout this section present an interesting scene of agricultural activity. While the soil is in fairly good condition, draw-bar tests made by the county agent indicate that the draft is considerably harder than was the case last spring. A few fields in this section are being seeded to spring wheat, but very little spring barley is being planted. No re-seeding is found necessary except in cases where the ground is badly "washed."

The state convention and campmeeting of the Seventh-Day Adventist church will be held in Eugene in May if the citizens pay half of the expenses of bringing the big tents and other paraphernalia there.
