The Weekly Enterprise. OFFICIAL PAPER FOR CLACKAMAS COUNTY.

Oregon City, Oregon,

The Solution.

Some light is beginning says the Examiner, to dawn upon us touching the motives which operated to induce the proclamation of war against South Carolina. When they come to be sifted, ten to one that there is some thieving scheme wrapped up in all Grant's more important moves. Such was the case, on the hig'rest Radical authority, in regard to the San Domingo job. That nefarious business was clearly shown by Senator Sumper to have been conceived in fraud and prosecuted in total disregard of the Constitution. A little squad of speculators. -chief among whom were some of Grant's official household, had combined to make a good thing for themselves, and they were aided in their operations by the President. Up to this date the navy et the United States keeps watch and ward over Baez, Grant's co-conspirator in the dirty job, and by this aid alone the San

Domingan President holds his place. We have little doubt, as we have before attempted to show, but that Grant has also connected himself with a thieving "ring" to get possession of the Morman property. These vile persecutions are prompted by no higher motives. The object is to drive the Mormons from their homes and then seize their farms and mines. Brigham Young, it is said, has already left, and we may next hear of a call for the faithful to strike their tents and

emigrate to a new land of promise. And now comes a clue to this South Carolina business. The proclamation for his understrappers. A dispatch to the up and hung their thieving oppressors, of an oath, And so it became necessary to invoke the aid of Kaiser Grant. All honest men, in Washington and upon thieves and regues."

SENATOR POMERGY.—The Chicogo Times publishes some grave charges against Senator Pomeroy of Kansas. It alleges the general execuation of the people. that Mr. Pomeroy having fallen under the power of a counterfeiter from Obio named Carman, by being detected in a criminal Burea at Washington, and also obtained places in the Interior Department for his two sons; while Mrs. Carman and another woman of similar character, named Ghant, were appointed on the solicitation of Senator Pomeroy to positions in the Bureau of Printing and Engraving.
