TRESS-JUST LYNCHING.

From the Nashville Banner, Oct. 17th. Two of the most diabolical outrages ever perpetrated in a civilized community occurred last week near Shelbeyville. The victims were two of the most respectable white ladies of Bedford county, and the guilty parties two notorious negro desperadoes named Samuel Gilliland and Henry Williams.

Miss Susan Patterson had gone a short distance from her dwelling, scarcely out of sight of it in fact, when she met Henry Williams, who addressed her in language of the most insulting nature. Before she could utter a cry for aid, the villain seized her by the throat and threw her to the ground. She now shricked for help at the top of her voice. In the meantime her watch dog, which had fellowed her, pounced upon Williams, and in his efforts to bite him tore a piece of cloth from the right leg of his pantaloons. The ravisher not being able to manage both, as his intended victim resisted with all the desperation of despair; while the dog was harrassing him with fierce and desperate attacks, he jumped up and attempted to make his escape, without having accomplished his brutal purpose. At this instant Miss Patterson's brother came upon the scene, immediately gave chase, and ran him into Shelbeyville, where he was captured on Saturday, while hiding under the

house of John D. Fuller. Williams was committed to jail. and was not only identified by Miss Patterson, but the piece of cloth which the faithful dog had torn from his pantaloons was found to match it exactly.

A day or two after this attempted outrage, Samuel Gilliland went to the house of Mrs. Rogers and asked her if any one was at home beside herself. Frightened at his menacing manner, she replied that she thought there were others around the house, whereupon he told her that she lied ; that he had been watching around the house for some time, and that not a soul was there beside herself. He further informed her that he had driven the hearse in which her husband had been conveyed to the grave, and that he had his eye upon her ever since. Suspecting now what was his foul intention, Mrs. Rogers commenced to scream, when the fiend clutched her by the throat, threw her to the floor, pulled out a firk and gave her to understand that if she made any noise it would be her death. Notwithstanding this naurderous threat, she resisted and, in her struggles, scratched him on the nose with her finger-nails. After having satisfied his brutal desires, Gilliland went to the door to see whether any one was approaching, returned and, with his A woman may be surrounded by dirk ready to murder his victim if all the luxuries that money can she made further resistance, again buy, and have the fawning friendoutraged her person and rushed out ship of people whose smiles only of the house. Gilliland was for some time driver of the Shelbeyville omnibus, but resided, at the time of the perpetration of the crime above detailed, about seven miles from that town. It is said that on the very day he outraged Mrs. Rogers, he had gone to the house of another lady with the same intent, but that she was fortunate enough to escape his clutches. This lady having told of his conduct to some of the neighbors, one of them kept a watch over her house for fear he would return again.

Both Williams and Gilliland were a terror to the whites and blocks of Bedford, and all rejoice at having been rid of their presence. A bill is now before the Legislature making rape a capital offense. We hope that it or some similar measure will be speedily passed into a law. The crime is one which has been committed with fearful frequency of late, and no offense against the law of God and man more richly merits the heaviest penalty that can be inflicted. Pretexts for interfering with the due process of law can be no longer offered when the severity of the law is made equal to the enormity of the crime.

feat General Grant, if he possibly can, very much as he defeated Mr. Seward in 1860, to nurse into life as many candidates as possible, and to fall back upon Mr. Colfax as the popular and available man. A more pertinent illustration, perhaps, would be that afforded by the nomination of Mr. Polk in 1844 and Gen. Pierce in 1852. It will be remembered that Mr. Polk was thrown into the convention, after the enemies of Van Buren had worried his friends and threatened to defeat the party by withdrawing from the convention and supporting Cass.
