The Weekln Enterprise.

OFFICIAL PAPER FOR CLACKAMAS COUNTY.

Oregon City, Oregon,

Friday : : : Dec, 8, 1871.

The Passive Policy.

With the solitary exception of the advice given by the New York World to the Democratic party, just on the eve of the last Presidential election, to the effect that one of the candidates nominated by its regular convention should be thrown overboard, there has never before been so suicidal a policy recommended by any one outside of a madhouse as that recently advised by the St. Louis Republican, to the effect that the Democratic party should disband its organization and make no nomination in the ensuing Presidential canvass. What would be thought of a General, if, on the day just before an engagement was unavoidable with the foe, he would order the old guard of veterans that had seen the smoke and borne the brunt of a hundred battles, to disband and to fall in as the rear guard of a motley crowd of disorganized militia, gathered together from among the camp-followers and discharged mule-drivers of the enemy? Would not any man with even a lady's thimble full of brains vote him either a fool or a madman? And yet that is precisely the policy advised to the Democracy by the St. Louis Republican. It recommends that the Democratic party, venerable in years, honored in tradition. compact in organization, and parental in its existence, an organization which has been victorious on many well contested fields, and which, though often defeated by force, fraud and corruption, still preserves intact, its rank and file of veterans. beneath the same old flag, "torn but flying," which it has ever borne, shall now is going. But his is a progressive scheme, for if they entertain a hope that they can prove alike false to its past history and and if it succeeds, the idiots who swear proselvte a Black Republican, they are recreant to its high duties ; disband its forces and fall in behind a lot of soreheaded Republicans, who never have had be its first victims. We shall be able to been right, and where let me ask would faults of their own party, nor the courage tion in a single State of the Union, and machine, a light against a power reinforcwho neither have the tact, ability or courage to form one, even if the Democratic | turers, a power which at this time comoparty should be big enough fool to dis- mands both houses of Congress and the band its organization and betake itself to the most humiliating task of patting these sore-heads on the back while they should make the attempt. The policy which every dictate of prudence and of reason would point out to the Republican. Strict political organizations have become a necessity 'n this country and have arisen only in ob die ice to that necessity, and now when the experience of long years has taught us their use; now when we find in our front a foe possessed of the National Treasury, which it mainly uses to strengthen its organization, it is our imperative duty to attend to the strengthening and inspiriting of our own instead of disbanding its ranks, and thus demoralizing the entire host. Instead of counseling the Democracy to disband and await the action-of the Lord only knows whom-who will hold a nominating convention, the Lord only knows when, and where, it is the duty of every Democratic journal in the land to urge a more thorough organization of the old guard and demand of the National Democratic Committee an early nominating convention, so that we could have plenty of time to harmonize and drill our forces. and arouse the necessary enthusiasm by TERPRISE opposed the bill before its pas- acknowledge it. But there is no danger when they are properly trained at home, and placed under

he care of a proper teacher. They easily earn to respect their surroundings when worthy of respect. I am well aware that | ticket at Salem last Monday. The Demohose who are determined to secure an education will make the most of their opportunities and overcome all obstacles. But for the public good, education must not be limited to such. All must have a share and while a tew may not require a strong

stimulus, the great majority must be enouraged by a variety of methods. And pleasant school rooms are among the most flective of these. With such, one of the difficulties in securing regularity of attendance will be taken out of the way. Childrea will take delight in attending school, and every day will find them in their places.

Inasmuch as district quarrels often prevent the crection of school-houses when much needed, it seems to me that it would be well to give the County Court the power to locate and build them where and

when required, at the expense of the county. In this way ground for local jealonsies will be removed, and so far as and Wm. Deitz, Second Assistant.
