Eloquence of the Heart. Cromwell was one day engaged in a warm argument with a lady on the subject of oratory, in which she maintained that eloquence could only be acquired by those who made it their study from early youth, and their practice afterwards. The Lord protector, on the contrary, maintained that there was an eloquence which sprang from the heart; since when that was deeply interested in the attainment of any object, it never failed to supply a fluency and richness of expression which would, in the comparison, render void the studied speeches of the most celebrated orators. It happened some days afterwards, this lady was thrown into a state bordering on to distraction, by the arrest and imprisonment of her husband, who was conducted to the Tower as a traitor to the Government. The agonized wife flew to the Lord Protector, rushed through his guards, threw herself at his feet, and, with the most pathetic eloquence pleaded for the life of her innocent and injured husband.

His highness maintained a severe brow, till the petitioner, overpowered by the excess of her feelings, and the energy with which she had expressed them, paused; then his stern countenance relaxed into a not aware of the beneficial effects smile, and extending to her an or- of wearing flannel next to the body, der for the immediate liberation of | both in cold and warm weather .-

Ayer's Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing rep-

intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great cor-ruptions of the blood, such as the scrofulous. and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful eures, many of which are publicly known, of Scrofula, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipe-las, Tetter, Salt Rheum, Scald Head, Ringworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspep-. sia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhoea, when they are manifesta-

tions of the scrofulous poisons. It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of
