Now I would ask how many more such deaths an inquest would bring to light? Ponder well, reader, upon this, and think of the thousands that die every year and no the question that would naturally enter the mind of the reader, is what shall I do? The advice of the Dr. would be go to some one that is competent of treating such complaints. And who is more competent than the one that has made Worms a speciallity. Tenias.-Yesterday, Dr. J. W. Van Den-Beigh exhibited to us a number of parasites which had been removed from persons afflicted; there were several different species one of which appears to be entirely unknown to the medical profession. This new taenia is shaped something like an orange seed, seed, with a tail about a quarter of an inch in leigth. Another was a tape worm 87, For the accommodation of esutomers, leet in length, consisting of 9,600 joints. Among medical men there exists no little difference of opinion relative to the origin favored by certain states of the vital forces organization and promoting their growth

monials could be produced, testifying to the truth of the asser ions that have here been made, but it would be useless and would only occupy the reader's time.

The following are some of the diseases that Worms are often mistaken for, and Kidneys, Consumption, White Swelling, Palsy, Spermatorrhea, Diarrhea, Inconti-
