C. W. POPE & CO., Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise

from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the com-munities where it prevails. *Prevention* is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure" expels the miasmatic poison of Fever and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in bilious districts, where FEVER AND AGUE prevails, everybody should have it, and use it freely, both for care and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quipoison of FEVER AND AGUE from the system, HARDWARE AND BASKETS, WOODEN, cure of Intermittents is, that it contains no Oninine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease. Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disof the miasmatic poison. A great variety of disorders arise from its irritation, among which
are Neuralgia, Rheumatism, Gout, Headache,
Bindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen,
Hysterics, Pain in the Bowels, Colic, Paralysis,
and derangement of the Stomach, all of which,
when originating in this cause, put on the intermittent type, or become periodical. This
"Cone" expels the poison from the blood, and
consequently cures them all alike. It is an invaluable protection to immigrants and persons
travelling or temporarily residing in the malatravelling or temporarily residing in the mala-rious districts. If taken occasionally or daily while exposed to the infection, that will be ex-creted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protec-Oregon City Oregon. For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at healthy, and effectual restores faded or gray hair to its original

gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be | This little work contains information of the saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
