The Radical candidates for the various county offices have made their appointments to "speak" to the people of this county at the various school houses and churches in the county. This is in accordance with a practice which has sprung into existence by a set of professional office hunters, and who seldom have anything else to do. They go around with the professed purpose to "address" the people, when they are really engaged in the humiliating and disgusting practice of begging votes. The idea of such a set of men as compose the Radical ticket of this county presuming that they have the talent necessary to inform or learn the masses anything which they do not know, is simply sup posing that the people are a set of asses, and that they are their masters. It is not safe to entrust the people's affairs in men's hands who are professional office-seekers, and such are all who have no settled
