THE

HOUSE WE LIVE IN AND THE

INHABITANTS OF THE HUMAN BODY. WORMS.

THE CAUSE OF A GREAT MANY DIS-L eases, that have been pronounced incurable by the most emineus physicians, for the very reason that they overlooked the cause, and as Dr. Van Den Bergh has made the Entozoa a life long Study, he would inform the sick generally that by close observation and great experiments, has some to the conclusion that there are more acute and chronic diseases caused by Worms, Hydatids, Auima'culæ, or other species of Entozon. The public generally, or the profession at large, are not aware of the number of Patients who are treated by eminent Physicians, for this, that, or such a complaint, without any relief. If the disease had been understood, few doses of Dr. V's. Sovereign Worm Remedy would have immediately cared the complaint and saved a great many lives.

INHABITANTS OF THE HU-MAN BODY!

What think you reader, of your body being a planet, inhabited by living races, as we inhab t the earth? Whatever may be your thoughts on the subject, it is even so. Your body may be but a home for parasites that crawl over the surface, burrow beneath the skin, nestle in its entrails, and riot and propagate their kind in every corner of ita

The following is from the San Francisca Bulletin, of January 26th, 1872. (A recent Carl Martins recently died in Cleveland, Ohio, from eating meat infected with the Ova of Tanaea Solium. At the Coroner's Inquest, on Tuesday, (January 2d.) it was shown that three weeks before Christmas, Martins purchased a cateass of Pork. Some of the meet was caten the same day, and some was made into sausage. About ten days later, some of the sausage was eaten. and in a short time the whole family were taken sick. Martins died on Sunday. Decem ber 31st, 1871. Mrs. Martins and her two children are now very sick, and the fomer is not likel to recover. The verdict was in accordance with the facts. For further par-

ticulars, see Cleveland, Ohio, papers of above

date. A Coroner's Inquest brought this

Now I would ask how many more such deaths as inquest would bring to light? Ponder well, reader, upon this, and thick of the thousands that die every year and no cause can be assigned for their death. Now the question that would naturally enter the mind of the reader, is what shall I do? The advice of the Dr. would be go to some one that is competent of treating such complaints And who is more competent than the one that has made Worms a speciallity, Tenias.-Yesterday, Dr. J. W. Van Den-Beigh exhibited to us a number of parasites A large assortment of Groceries and Liquors which had been removed from persons af-A. B. RICHARDSON, Auctioneer dicted; there were several different species, one of which appears to be entirely unknown to the medical profession. This new taening is shaped something like an orange seed, in length. Another was a tape worm 87 fact in length, consisting of 9,600 joints, Among medical men there exists no little difference of opinion relative to the origin of these entozoa. One class of writers believe that these parasites, at least many of them, originate in the endowment of animal molecules with vitality from the parent body. . favored by certain states of the vital forces of that body; the states originating their organization and promoting their growth and propagation. That all descriptions of entozoa are met with far more frequently where animal food is used in greatest abundance, is an indisputable fact, especially where the food is the flesh of the "unclean beasts," which the Jews and Mohammedans are forbidden to partake of. But our intention is not to w. ite a thesis upon this subject to we only desire to chronicle the fact that Dr J. W. Van Den Bergh has found a medicine -a simple vegetable which grows in chand. ance in California, which is a dead shot to lentozon, of whatever de sription, generally accomplishing its object in ir m an hour and a half to six hours.—Morning Call. Had we the space Lere, hundreds of testimonials could be produced, testifying to the truth of the assertions that have here been made, but it would be useless and would only occupy the reader's time.
The following are some of the diseases

that Worms are often mistaken for. Dyspensia, Chronic Affections of the Liver and Kidneys, Consumption, White Swelling, Palsy, Spermatourhoa, Diarrhoea, Incontinence of Urine, Gravel, Flor Albus, Diabetes, Dr. V. would advise those ladies troubled with any Irregularities of the Uterus to try his new remedies and get cured. Testimonial. PORTLAND, Feb. 10th, 1872. DR. J. W. VAN DEN BERGH-Dear Sir : Our child, a little girl eight years of age, has had fits and convulsions for the last two years, and we had tried many doctors and many remedies without much benefit, in fact our darling was getting constantly worse until we heard of your worn syrup through a friend of ours. We thought that perhaps it might do some good to give it a trial, and you cannot imagine our surprise when over 200 worms were expelled with one bortle of your valuable worm syrup, and from this time on we certainly shall never be without BLANK BOOKS RULED and BOUND to it so long as there is a possible chance for it to be had.
