## Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

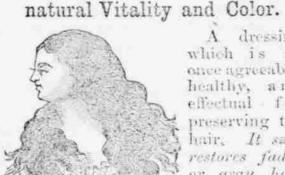

Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually

control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine, The most dangerous affections of the Pulmonary Organs vield to its power; and cases of Consumption, cured by this preparation, are public-ly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become neurable, and too often fatal, if neglected. Tener lungs need this defence; and it is unwise to e without it. As a safoguard to children, amid and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multi-tudes are rescued from premature graves, and saved to the love and affection centred on them-It acts speedlly and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily Originally the product of long, laborious, and

successful chemical investigation, no cost or toll is spared in making every bottle in the utmost possible perfection. It may be confidently rehed upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected. PREPARED BY
