They failed to them. make an entrance at the first named place. but they got in at the latter, and obtained a little money from a child's saving-bank. They also visited the Barlow House and stole some property which is advertised to-day. On Monday night they got into the store of Mrs. H. M. Kelly and got driven out, and now are living with the specified, not exceeding twenty. Indians, who are supposed to be the perpetrators of these thefts. To meet their and after its passage. case, the City Conneil passed a vagrant act to have such fellows arrested, and we presume they will find it convenient to 1872 absent themselves from our town. Our police have their eyes on the suspected parties, and we hope they may be brought to justice. It is supposed that they are connected with a gang at Portland, and their plunder is taken down there and

RAIN NEEDED. - Our farmers are needing * me rain just at present. The fall crops are far alvanced, and look extremely well, and need no rain, but the spring grain is already suffering for rain. The late warm weather has dried up the high lands and unless we soon have a good shower, the late sown spring grain will attend. not be heavy.

CHERRIES.—Cherries are becoming quite plenty in the market, and Oregon vegetables are beginning to supply the place so long occupied by California productions Strawberries are not as ptentiful as gen erally yet the cultivated plants are producing very abundantly, and the supply is sufficient for the demand.

THE FOURTH.-Grand preparations are being made by Mr. Burbank, proprietor of the Soda Springs, for a celebration on the fourth. A. F. A Pit ful Condition.

Recorder.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and de-PRECINCY OFFICERS .- Following is a list bility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure. In nine cases out of ten this state of lassitude and torpor crises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs rousing and s rengthening; not merely for an hour or two, to sink afterward into a more pitable condition than ever (as it assuredly would do if an ordinary alcoholic stimulant were resorted

How is this desirable object to be accomplished? The answer to this question, ounded on the unvarying experience of : quarter of a century, is easily given. In use new vigor into the digestive organs by a course of Hostetter's Stomuch Bitters, D. not waste time by administering temporary remedies, but wake the system up by recaperating the fountain-had of physical strength and energy, the great organ upon which all the other organs depend for their

ourture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken the feeble frame of the dysper tic will begin to feel is benign influence Appetite will be created, and with appetit he capacity to digest what it craves.
