THE CAUSE OF A GREAT MANY DIS-L eases, that have been pronounced incurable by the most eminent physicians, for the very reason that they overlooked the cause, and as Dr. Van Den Bergh has made the Entozoa a life long Study, he would inform the sick generally that by close observation and great . xperiments, has come to the conclusion that there are more acute and ehron-ic diseases caused by Worms, Hydatids, Auimalculæ, or other species of Entozoa. The public generally, or the profession at large, are not aware of the number of Patients who are treated by eminent Physicians, for th's, that, or such a complaint, without any relief. If the disease had been understood a few doses of Dr. V's. Sovereign Worm Remedy would have immediately cared the complaint and saved a great many lives.

INHABITANTS OF THE HU MAN BODY!

What think you reader, of your body being a planet, inhabited by living races, as we inhabit the earth? Whatever may be your thoughts on the subject, it is even so. Your body may be but a home for parasites that crawl over the surface, burrow beneath the skin, nestle in its entrails, and riot and propagate their kind in every corner of its

Car. Martins recently died in Cieveland, Ohio, from eating meat infected with the Ova of Tanaca Solium. At the Coroner's Inquest, on Tuesday, (January 2d.) it was shown that three weeks before Christmas, Martins purchased a carcass of Pork. Some of the meet was eaten the same day, and some was made into sausage. About ten days later, some of the sausage was eaten, and in a short time the whole family were taken sick. Martins died on Sunday, December 31st, 1871. Mrs. Martins and her two children are now very sick, and the fomer is not likel to recover. The verdict was in accordance with the facts. The advice of the Dr. would be go to some one that is competent of treating such complaints. And who is more competent than the one that has made Worms a speciallity. Textas. - Yesterday, Dr. J. W. Van Den-Beigh exhibited to us a number of parasites which had been removed from persons afflicted; there were several different species one of which appears to be entirely unknown to the medical profession. This new taenia is shaped something like an orange seed, but perfectly flat, or rather like a cucumber seed, with a tail about a quarter of an inch in let gth. Another was a tape worm 87 feet in length, co sisting of 9,600 joints, Among medical men there exists no little Send for Circulars and samples of difference of opinion relative to the origin the work. Active Lymna william is of these entozoa. One class of writers beeve that these parasites, at least many of hem, originate in the endowment of animal melecules with vitality from the parent body favored by certain states of the vital forces of that body; the states originating their organization and promoting their growth and propagation. That all descriptions of entozou are met with far more frequently where a simul food is used in greatest abund ance, is an indisputable fact, especiall where the food is the tlesh of the "unch beasts," which the Jews and Mohammedans are torbidden to partake of.
