SHOULD BE PROMERTED,-Parties in this city, and in other parts of the State, are

in the habit of fishing with giant powder. They wrap up a quantity of powder in a wad, fix a fuse and throw it in the water ; this is very destructive to the finny tribe, as it instantly kills all within fifteen or twenty feet around the place where the powder is deposited. This mode of fishing may be profitable to the parties engaged in it, but we think it will not be so for future fishermen, as it kills the small fish that are of no use to any one now. as well as large ones. We hope the Leg islature will book after this matter.
