THE ENTERPRISE.

THANKS .- Mr. Eugene La Forest dee 1 was \$108 in coin, and \$98 in greceries. Mr. La Forest feels very gratef d for the generosity of our citizens in Lehalf of himself and family. Mr. La Forest is an old citizen of this place, and long sickness with a large family has re-duced his financial condition so that this aid is necessary. When he was in better circumstances, and in good health, his purse was always open to the deserving and needy, and we feel assured that he will now find those among whom he is best known ever among whom he is best known ever ready to give him the assistance he and family may need. The community generally deeply sympathize with him and his family in his long continued illness, and yet hope to see him sufficiently recovered to be again among its active workers.

The measles and whooping cough are complaints still prevalent in Portland, and we hear from Oregon City and Ca-nemah that much sickness prevails in those parts among the adult pertion of the community. Two or three deaths were reported last week.

The above is from the Portland papers. As usual, there is but very little . truth in it. There is but little sickness in the town or vicinity, and there has not been a death in this town for a long time until last Wednesday evening. We noted one about two miles from town last week, the person having lived to the ripe old age of S3. We are at a loss to know why these Portland papers cannot speak, the truth occasionally about Oregon City and vicinity.

APPLICABLE .- The following item from the Albany Register is in point and directly applicable to this city, and Oregon City is doing the identical thing : Albany is yearly driving thousands of dollars to other points-trade that legitin ately belongs to her-because she does not take the lead in augurating and completing two or more geo broads leading through the more populous por-tions of the county. It is a matter that we have referred to before and shall again when opportunity offers.

HOTEL CHANGE.-Mr. E. C. Holden retires from the Cliff House next Sunday, and Messrs. Bray and Al, White assume its management and eater to me wants of the people. The new pro-prietors are both well known and have had considerable experience in the bus- little over one and one-half quarters they will succeed in giving general sat-isfaction to all who may favor them. The executors of Horace Greeley's will state that the available assets of the estate aggregate \$127,930. Of this there are six shares of Tributue stock, valued at \$9,000 each, the copyrights of his "Recollections," "Political Economy," and other works, valued at \$13,000, besides promissory notes, sundry worthless loans, and numerous shares of stock in various associations and railroad bonds which are of no earthly value. One singular item appears in the inventory. It is a loan of \$500 at 4 per cent. to E. P. Weston, the pedestrian.

latest from the front," has this: It is a sad thing to pass through life only " From J. W. Manning, who has just half alive. Yet there are thousands whose habitual condition is one of laaguor and debility. They complain of no specific discase; they suffer no positive pain; but they have no relish for anything which affords mental or sensational pleasure to their more robust and energetic fellow-beings.

In nine cases out of ten this state of lassi tude and torpor arises from a morbid stom tude and torpor arise stroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function is interrupted. Now, what does common sense suggest under these circumstances of depression? The system needs rousing and strengthening ; not merely for an hour or two, to sink alterwards into a more pitiable condition than ever (as it assuredly would do it an ordinary alcoholic stimulant was resorted

to), but radically and permanently. How is this desirable object to be accom-phished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infuse new vigor into the digestive organs by a course of Hostetter's Stomach Latters. Do not waste time in administering temporary which all the other organs depend for their nuture and support. By the time that a dozen doses of the great regetable tonic and invigorant nave been taken, the feeble frame of the dyspeptic will begin to feel its bonign influence. Ap-petite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete-until healthful blood, fit to be the material of lesh and muscle, bone and nerve and brain, flows through the channels of circula-

tion, instead of the watery publicum with which they have heretolore been imper-fectly nourished.

Wonderfel are the cures which have been effected by WISTAR'S BALSAN OF WILD CHERRY. It is a direct cure for coughs, coids, bronehilis, whooping-cough, etc., and give tone and vigor to the whole system. Thousands give unsolicited testimony as to its eff. ct.
