MARKETS.—There is no material change in the market reports either from San Francisco, Portland or Oregon City this week.

BALLOON'S MAGAZINE FOR APRIL.—Ballou's Magazine for April is issued and a nice number for it is printed on the whitest of paper, with the richest ink, and is now one of the handsomest magazines in the country.

AN EXCHANGE.—There was one paper in Oregon which endorsed the peace policy with the Modocs.

Meeting at Portland.

A citizen's meeting was held last Monday for the purpose of expressing the feelings of the people in regard to the treacherous murder perpetrated by the Modocs, and also give an expression of the high esteem in which the murdered General and soldier was held.

WHEREAS, By one of the most atrocious acts of treachery conjoined with murder known in the world's history, a great Captain of our armies and a beloved fellow-countryman, together with others, has been suddenly stricken into death while in the performance of duty to his Government and in the endeavor to save his slaves from the swift vengeance of an outraged people.

Resolved, That the diabolical slaughter of General Canby and the Rev. Eleazer Thomas and the murders on the lives of Mr. A. B. Meacham and Lieutenant Sherwood, near the Military Camp in the Modoc country on Friday, April 11th, require the immediate attention of the Government at Washington, and should be punished to the utmost rigor and extremity.

Resolved, That by the death of General Canby the United States Army has lost one of its noblest soldiers and ablest commanders; the Nation one of its most patriotic defenders and worthy sons, and his countrymen everywhere one of their most faithful champions and devoted friends.

Resolved, That to manifest our high appreciation of the late General Canby, the citizens of Portland will close their places of business and observe other tokens of profound regard and deep sorrow on the occasion of his obsequies here.

Resolved, That we tender the heart-broken widow of the noble dead our most earnest condolence. Resolved, That we likewise tender the widowed and orphaned others who have been bereaved by this savage and bloody massacre, our heartfelt sorrow and sympathy.

Resolved, That we, the citizens of Portland, in mass meeting assembled, denounce with unqualified indignation and with unreserved repudiation the attitude and conduct of those in or out of authority, officials and journalists and attorneys of public sentiment, who have sought to cast stigma on the people of Oregon for their part in this Modoc difficulty.

Resolved, That we protest no longer shall that most mischievous, false and dangerous policy be practiced by the Government in its treatment of hostile and implacable savage tribes.

Resolved, That a copy of these resolutions be transmitted to the President of the United States, and that the daily newspapers of this city and the press of Oregon be requested to publish the proceedings of this meeting.

The Modoc Treachery.

Gov. Geary received a dispatch from J. E. Ross, of Jacksonville, and dated of the 17th inst., stating that the Modocs were dangerous. The settlers warned and taxed stopped.

The promptness of the Governor in the defense of the settlers is deserving of the highest praise. Nothing has been left undone by him to bring these murderous savages to justice, and his manner of making peace been referred to him, he would have long since accomplished that object, and a many a Modoc would now be a good Indian.

CHANGE.—The Tuesday issue of the Portland Herald came to us with the announcement that Mr. C. B. Bellinger would take the editorial charge of the paper after that issue.

Mr. Bellinger is a young man of good abilities, a ready and forcible writer, and has had considerable experience in newspaper business.

PETER'S MUSICAL MONTHLY for April, price 30 cents, contains the following selection of choice New Music: "The Waves her Spirit Waves," Song and Chorus, by Stewart.

THE WEST.—We commented this journal to our readers very highly when it first started, and hoped that it would be just to the entire coast and be impartial to all sections.

IMPROVED.—The Oregon City Enterprise shows signs of financial success by coming out in a new dress. Although a good looking paper before, new type gives it a bright appearance.

Resolutions Adopted by the Farmers' Convention.

The following resolutions were adopted at the Farmers' Convention which met at Salem last Friday:

WHEREAS, the practice of the farmers of Oregon, of storing their grain in the warehouses of millers and grain dealers, has resulted in placing the power of setting the price, to a great extent, within the control of the buyer; and, whereas, the present system of the transportation of freights upon the Columbia and Willamette rivers is unnecessarily tedious and expensive; therefore, resolved,

1. That we strongly advise that farmers keep absolute control of their own products until sold, in order to keep themselves free from conditional engagements with middle men.

2. That it is manifestly the interest of the farmers of the Willamette and Columbia river valleys to combine and build warehouses at convenient points along the railroads and navigable streams, for the purpose of storing their products, and to sell said products directly to the shipper or consumer, so as to avoid the extortions of middle men.

3. That, in our opinion, the construction of warehouses at Astoria will greatly facilitate the transportation of our products to foreign markets; and that it is the conviction of this body that a warehouse or warehouses at said point will meet such encouragement at the hands of the farmers of this State as will insure their success as an investment.

4. That we are not prepared to recommend the building of sea-going vessels by farmers, yet the construction of such vessels within our borders for the purpose of transporting our products to foreign markets, deserves every encouragement from the people of Oregon.

5. That while we are in favor of encouraging all legitimate means of promoting and expeditiously sending our exports to foreign markets, we would most emphatically recommend the encouragement of all branches of home manufactures as a means of creating a home market for the multiplication of our consuming population.

6. That, as we recognize the merchants of Oregon as sufferers in common with farmers when freights are subjected to unnecessary cost and delay, we therefore invite their cooperation with us in securing relief from our present system.

7. That, having interest in common with all skillful mechanics in the encouragement of home manufactures, we would recommend to the consideration of our State, the policy of using apprentice labor.

A FIT REPRESENTATIVE.—President Grant has appointed an ignorant negro Postmaster at Hamden Sidney College, in Virginia, having removed a white Radical to make room for the sweet-scented embodiment of Grantism.

Could Patrick Henry, a founder of that institution, William Henry Harrison, one of its earliest alumni, and Jos. Madison, who, as one of its officials, cherished it through life, arise from their graves and visit to them through life, what would be the astonishment and indignation to see the only representative of the Government which they sacrificed so much to establish and serve, an ignorant negro boot-black, in an eight-by-ten log-hovel!

THE APPARITION OF AN OLD STATESMAN like Silas Wright, Henry Clay, or Thomas H. Benton suddenly appearing in the Senate of the United States, says an exchange, while the members of that great body were discussing the question whether some of their associates were not fitter for cells in the penitentiary than for seats in the highest branch of the National Legislature, might be a wholesome reminder of the difference between the bitter present and the bitter past.

NEW TO-DAY. GUARD AGAINST FIRE! DELAYS ARE DANGEROUS. THE NUMBER OF OURS SEVEN FIRES which have occurred in our State the past year, and the late disastrous conflagrations in Portland, Springfield, Dallas, Oregon, and Jacksonville, should admonish property owners to seek indemnity against loss and damage by fire without delay.

THE PHOENIX INSURANCE COMPANY, OF HARTFORD, CONN. Represented on the Pacific coast for over fifty years, during which period it has paid over \$1,000,000 for fire losses in the Pacific Department, is one of the leading American Fire Insurance Companies, and through Hartford Company represented in the State of Oregon.

It is reported that a fair prospect exists that the woolen mills at Brownsville, which have been idle for some months, will be put in active operation during the coming season. Two mechanics of experience in the business, propose to obtain control of the mills and run them under their own special supervision.

Half Alive. It is a sad thing to pass through life only half alive. There are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they are unable to do their duty, and their mental or sensual pleasure is to their only relief.

Notice. The Agents of the Phoenix are authorized by contract from the company to issue and renew Policies direct and without reference to Portland, San Francisco, or elsewhere, thus enabling the applicant to secure immediate and binding protection.
