GENTLEMEN OF THE CITY COUNCIL OF OREGON CITY In compliance with the law, I have herewith the honor to submit for your tin bridge-A. R. Shipley, superinten- consideration such matters as I deem

The first thing for you to consider is the business unfinished by the last Bids for the construction of a road twenty feet wide from Ninth street at the foot of the bluff to Seventh street at

the summit have been received and opened but no bids have been acted ipon by the outgoing Council: the owest bid for the construction of the proposed road is \$1,200 coin. I recommend that said bid of \$1,200, be acceptd, and a contract at once entered into for the performance of the work. Your Fire Department is in want of

new hose and other fire apparatus to enable it to continue its usefulness. It will be in vain that your gallant fire-man peril their lives as they have done heretofore in subduing the destroying element unless they be furnished with necessary hose to make use of the water we have in such abundance. Already they have twice prevented a general conflagration and have deserved your warmest thanks. As to the detail of the wants of the Department, I have the honor to herewith submit the report of Chief Engineer W. L. White, and I recommend that you give his suggestions a careful consideration. 'The progressive condition of your City school is a matter of common notoriety, but the inside of the school building is very much in need of repair, and I recommend that you take the necessary steps to have it repaired. Sewers in use by hotels and private residences have no connection with he river and as a consequence their contents being left on the ground with n the city limits are dangerous to the nealth of our citizens. I recommend

e made. I also suggest that at the earliest opportunity you rent a suitable room for a Council Chamber for the next year. Very respectfully submitted, F. O. McCown,

that you cause the necessary repairs to

THE ALDINE for May is the most brilliant number of the supurb magazine ever issued. It opens with a magnificent picture, "The Lee Shore, by M. F. H. de Haas, who stands, by general consent, at the head of the narine painters of America, and who has never done anything so fine as this frawing. The fury of the winds and valers that have driven the good ship from her course on the terrible lee shore is rendered with wonderful breadth and vigor, and vividly recalls took the ill-fated Atlantic. We turn from the dreadful struggle of the elements to a delicious drawing after the original of Monginat. It is entitled "Unbalden Guests," and represents a group of kittens on the table of an epi-cure, and making have among the dishes. We have next "A Trout Brook," by Casilear-a glimpse of rearing torrent, that goes winding and dashing on its way through the breezy voods, which the angler will be un willing to leave as long as the troud ise, as they must there. There are esides six spirited illustrations of New hicago. There is also an admirable riew of "The Drusenfall," a noted fal a Thuringia; and a charming illustraion by Dose, imbued with that grace which he knows so well now to infuse his pictures when the subject deads. Medical Blunders. From the period when surgeons applied their salves to weapons instead of wounds to the present wide-awake age, the medical

profession has often unwittingly taken side with Disease in its conflicts with the human system. Even yet, in spite of the teachings of centuries of experience, some physicians believe in depicting their pa tients, already seriously exhausted by sici ness, with powerful evacuants, emetics salivants, cautharidal plasters, or the lan-est. But, providentially, public intelli-gence is ahead of these medical lossils, who belong, of right, to the era of the Crusades! That powerful ally of nature in its warrare with the causes of sickness Hostetter's Stomach Bitters, has opened the eyes of the masses to the paramount importance of increasing the vital strength of the body when menaced by disease, they understand that when the atmo pheric conditions are adverse to health, it is wise to reinforce the system with a wholesome tonic and stimulant, and thus enable it to combat and repel the depressing influence of an inclement tempera-ure. If the constitutional and animal powers were always thus recruited in the presence of danger, the mortality from consumption, brenchitis,, chronic rheu-matism, &c., would be much less than it low is. The causes which produce croups, olds, quinsey, diptheria, and catarrh solion affect a strong and active vital sys om; and of all vitalizing preparations Host ster's bitters has proved the most fileient. It is not claimed that this stand-ird tonic is a specific for lung and throat maladies, sait is for dyspepsia, liver com-daint and intermittents, but it is unhes-italizely asserted that it is the best known safeguard against all the atmospheric ele-
