Chinaman Versus White Man.

From the Catholic Sentinel, May 16. At an adjourned meeting of the In-opendent Club of Portland on Fri-enandise and Horses, dependent Club of Portland, on Friday aftern out, the following resolu-

tion was u animonsly adopted; Resolved That it becomes the imperative duty of every official connected with this city government to debar, refu e and obstruct China labor from being used, tolerated or employed on any private or public contract wherein the city of Portland is or may be a party, as now ordered and directed by the city of San Francisco. And, furthermore, the employment of China labor is one of A large assortment of Groceries and Liquors. A. B. Song and choers and property-holiters.

We have, on several occasions, lifted our voice in condemnation of of preferring Chinamen to white country, but even so to the very men , Dead but not lorgotten. Song and ch upon this subject have, till a few *Lay me where my Mother's Sleeping, da is ago, found no echo by the the pless of this country, nor by the people, except in individual murm rings against and condemnation of the practice. Last Friday, the Belisario, Fantasi first public expression moon this subjeet took place here, and, though the "Jonanie's March. daily press of this city did nothing more than publish the proceedings "Hattie's Waitz... and resolutions of the body that had the conrage and good sense to initiate this righteous war upon a ruinous policy, that of itself will have the effect of bringing the matter before the people, and may eventually cause political papers to take sides for or against.

We earnestly advise working men to agitate this matter until a recognition of their rights to receive the benefits of the labor now reaped by Chinamen is gained, and, though, we do not pretend to enter the political arena, we hope that Catholic workingmen, and in fact all who have the well-being of the country and its white population at heart, will give STRAUSS' WALTZES that advocates the exclusion of Chinese labor upon all public works, and the entire abolition of the laws which open wide the doors for China

This matter is fast becoming one of life and death to the laboring classes on this coast, and unless a speedy change is made, we fear that the people will be driven to desperation. What the result would be, God only knows.

Robert Simons, the Scottish mathematician, was noted for his obsent mindedness. He used to sit at his open window on the ground floor, deep in geometry, and when accosted by Dbeggar, would arouse himself, hear a few words of the story, make hear a few words of the story, make Give me a call and convince yours-ives, his donation, and dive.
