If our next Democratic Convention nominate a man who left the care of his herds, bovine and poreine, for the purpose of lobbying for that bill. what else would such action be but a virtual condemnation of our State Executive, of the great majority of the Democratic members of that Legislature and of opposition, to such legislation itself? If such a nomination is made, what inducement will the Democratic party hold out to its members to remain steadfast to principle and unyielding in opposition to the aggrandizing prottings of monopolies? None at all. Such a nomination would rather be a virtual instruction to the members of the party that the safe road to preferment is to abandon principle and plough for their enemics.

But it has been arged by some that we should forget these things and go for a candidate who will make an aggressive warfare. We are for aggressive war but it is war against monopo lies, in Oregon as well as abroad and not merely an aggressive war against a miserable adulterer and bigamist. We do not think it at all becoming advisable or necessary in the coming canvas to lose sight of our principles and turn loose the twelve thousand Democrats of Oregon under the lead- pull, and all pull together, ership of a blackguard to fight an We have complaints from Sandy Hipple, as an alien and an enemy. already ruined criminal.
