COLEMAN'S Dr. J. S. Coleman's Com-EUCALYPTUS tus is a preparation combining all the valuable medical quaities of the Eucalyptus, which is cultivated in nearly every California garden for its medical utility, having be-come the household remedy for all diseases of the *KIDNEYS*, *BLADDER* and *URIN*-ARY CANAL, and SEMINAL WEAKNESS. It seems to have a direct affinity for the

and balsamic properties more effectually than any other known remedy. It is an invaluable remedy for all diseases of the mucous and scrous membranes, such is membranes, such as BROCHITIS, HACHING COUGH, NAUSBA DURING PREGNANCY, DYSPEP-SIA, LBUCORRHEEA, etc.

This preparation is the result of Dr. Coleman's experiments with the medicinal properties of the tree in the U.S. Msrine Hospital in San Francisco, in 1871 and 1872, where he had unusual facilities for testing the various methods of preparing the remedy, and he had unusual mentions for 0 string the variables in tradits of preparing the real dy, and its uses. It can be relied upon as certain to give the promised results, and hundreds of testimonials of its efficacy can be seen at his office, 465 Kearney steet, San Francisco. COLRAMN'S DOUBLE EXTRACT OF RUCAL YPTUS is a pow-

erful, yet harmless, febrifuge, and is a special preparation for the treatment of the malarious fevers of our interior valleys, and is war-ranted to cure any case of FEVER AND AGUE treated with it accord-ing to directions, while the baneful results of the usual Quinine and arsenical remedie for those diseases are entirely avoided.
