THE ENTERPRISE.

OREGON CITY, OREGON, MAR. 20, 1874.

St. Nicholas of FOR March.-The number of St. Micholas opens with a very useful article on Edward Jenner. by Clarence Cook. Accompanying this is a fine engraving of the statue of Jenner by Montverde. The illustrations are usually up to the high standard, and there are some very striking full-page pictures. The engraving oalled "Some Curious Fishes," drawn by Jas. C. Beard, will open the eyes of the youngsters. The French story is usually good this month, and is well illustrated. We notice that a "Letter Box" has been added to the attractions of the magazine. This will be good news to young people who like to ask questions of editors.

OUR DAVE .- A correspondent of the News from Washington, speaks as follows about our Dave: "Col. D. P. Thompson is energetically at work about the Department, where he is well known. Whether he resorts to that persuasive eloquence that wins the the hearts of poorly-paid clerks, or be-ter paid heads of Departments in this corrupt city, I know not; but this any man can see, who cares to observe that as an attorney, or claim agent, Dave in the March issue of The Aldine. Pacific Coast, whether in or out of the Senate or House. As a business man in Washington, Dave is a success."

If we were to have a Republican for Clerk, (which is one of the impossibilities) we know of none who would suit us better than Hagene. He has strong opponent, however, who desire to be sacrific it for the good of their party.

"Wild Life in the Far West" is a volume of 488 pages, quarto size, in good type, on fine white paper and hand-somely bound. It contains, also, thir-ty-three illustrations, some of them on tinted paper, and the frontispiece elegantly colored. The record of Capt. Hobbs' experience is told in a straight forward manner and is very interesting in reading. THE PARKER GUN.-We take pleas ure in calling attention of our Valley friends to the wonderful merits of the double-barreled breech loading shot

guns manufactured by Parker Brothers, West Meriden, Conn. The highest testimonial received from all sections of the country, and the thorough test given it in the field by our friend Capt. Green B. Samuels, warrant us in asserting that it is the best breech-loading shot gun in the world. The simplicity of construction, the ease with which it can be loaded or unloaded, the facility with which the load can be changed from small to large shot-enabling the sportsman, in an instant, to adapt his change to any sized game that may present itself—the ease with which it may be kept clean its availability to a country where nothing but muzzle-loading ammunition can be procured, all combine to recommend it to every sportsman who can appreciate a perfect fowling piece.— "Warren Sentinel;" (Front Royal, Va.)

Of course the proper answer to this question must be obvious to every one above the grade of an idiot or a lunatic, and hence it follows that the weak of toning, invigorating and vitalizing his his enervated frame with Hostetters Stomhis enervated frame with most tiers stom-ach Bitters, must be either feeble minded or deranged. Surely nothing short of im-becility or insanity could induce a person laboring under bodily weakness and nervous prostration, to take day after day powerful doses of some drastic purgative in the hope of gaining strength thereby. Although charlatans may advertise prep arations of this charac as tonics, people in the full possession of their reason can not, one would think, accept them as such. If they do the penalty of their credulity may be the shortening of their lives. The rheu-matic, the dyspeptic, the bilious, the debilitated and nervous, all who are subject to intermittents, or other diseases brought on by the inclement weater which prevails at this season, will do well to strengthen their nerves, tone their stomachs and regulate their bowels with the Bitters. The two-fold operation of the restorative as an invigorator and an aperient, in addition to its direct and specific effect upon the disordered liver, renders it a most efficient remedy for complaints of the digestive, secretive and exerctive organs, at present in use. This fact is conceded by eminent members of the faculty whose testimony to that effect is published in Hostetter's A'manae for 1874.

lime Tests The Merits Of All Things. THIRTY YEARS is certainly long enough me to prove the efficacy of any medicine, nd that the Pain-Killer is deserving of all is proprietors claim for it is amil 3 proved by the unparalleled popularity it has atained. Pain is supposed to be the lot of us poor mortals, as inevitable as death, and liable at any time come upon us. Therefore, it is important that remedial agents should be at hand to be used on emergency, when ve are made to teel the exernelating agony of pain, or the degressing influences of ditease. Such a remedial exists in Perry Davis' "Pain-Killer," the tame of which has extended over all the earth. Amid the ternal ices of the Polar regions, or beneath the intoterable and burning suns of the tropics its virtues are known and appreciated. And by it suffering humanity has ound relief from many of its ills. The effect of the Pain-Killer upon the patient, hen taken internally in cases of Cough, old, Fowel Complaint, Cholera, Dysentery, THE UNDERSIGNED ANNOUNCES and other affections of the system, has been traly wendered, and has von for it a name among medical preparations that an never be forgotten.
