Pour the whole mixture into your kettle and let it come to a boil stirring constantly, then take it off the fire and let it become cold.

prefer, then freeze it. sacks grain all at the same time.

### Endowed with Immortality.

From the San Francisco Examiner. The Democrats of Indiana have put upon a judiciously constructed platform and are going in to beat Radicalism to death in the Hoosier House of Representatives in the next Legislature. With the aid of the Radical platform of Indiana, and Secretary, Hon. S. F. Chadwich, and Governor Hendricks in his speech Hon. H. H. Gilfry, we have made a before the Democratic Convention egation from Multnomah is partly form appeals with pride to its fidelity Independent, without being so in to duty; to its freedom from taints the same degree as the Independents or suspicion; to its reforms; to its elected from other counties. They resistance to wrong, and to the exwere Independent candidates as op- posure of its faithless and dishonest posed to the regular Republican agents. Was ever so bold an appeal made to the credulity of mankind? This is the first correct Legislative | Did its authors really suppose they could impose on any voter by such an appeal? Is Williams not still the Attorney-General? Is not Moses now the Governor of South Carolina, with the indictment of a penitentiary crime upon him? Are the District Judges not still in office, against whom proceedings for impeachment were instituted? Does not the Louisiana crime against republican institutions still remain unrevoked? And are the guilty parties not now in the enjoyment of the fruits of the crime? a crime so odious as to make a Radical Senator denounce it as a " cloud upon the fair name of our nation.' And, when public opinion compelled the Secretary of the Treasury to resign his office because of his connection with the Sanborn frauds, was he not the same week made Judge of

the Court of Claims for life and confirmed by the Senate? The platform also declares the party pride over the investigation of the abuses in the District of Columbia, because they do not want the spoils of office. When did they deline the spoils of office? Intolerant and proscriptive, they allow none to share in the honor and profits of public positions unless they bend the knee in devotion to the party. The vast expenditures must pass into the pockets of their partisans, and no man can tell what sums pass wrongfully. It has no precedent in

our history. In February, 1871, the District of Columbia was placed under a new form of Government. The Governor, Board of Public Works and many other officers, and one branch of the Legislature were appointed by the President, and confirmed by the Senate, and the more numerous branch of the Legislature was chosen by people in districts. If capable of maintaining good government, the opportunity was most favorable. Under the eye of the President and his Cabinet, with a party in such majority as to exclude all others, none could hinder; they had their way and developed their tendency. But partiality, favoritism, and corruption soon had sway without restrainf and in three years the debt of he District exceeds twenty millions of dollars. The burden became too great for the party. Corruption and failure were admitted. Before the world they conceded that, in the national capital, with officers appoint-Drain I., D. W. Sears I., Thomas ed by the President and Senate or elected by their party, they could not preserve pure and free government. That form of government was lately abandoned, and, in the spirit of Rome's government of her Lane—A. J. Doak D., Richard conquered provinces, the District of Hays D., J. D. Matlock D., John Columbia was placed under the rule of three commissioners taken from Linn-Henry Shelton D., A. W. distant parts of the country. Free Stannard D., G. F. Crawford D., and representative government is Frank Shedd I., Joseph Lane I., this day broken down by party corruption in the capital of our country, Marion—F. X. Mathieu D., David and arbitrary, almost despotic, au-Simpson R., William Darst R., C. thority established. Can we conceive a more humiliating admission by the advocates of free institutions

to the world? The gentleman who presided over the Radical Convention felt it his duty to say that two years ago, Governor Hendricks had proclaimed the death of the Democratic party. The Clatsop and Tillamook-W. Dean Governor denies this emphatically, and declares he only said that we must turn our backs on the past, and stand in the present, and look forward to the great future; that the future is ours and that in it the people should achieve that full measure of prosperity and happiness which it is in our power to secure. The dead issues of the past do not furnish our animating sentiments. The princi-E. C. Bradshaw D., Lee Laughlin R. ples of free government, and the Clatsop county voted for Joseph usages essential to preserve liberty,

It is amusing to hear Radical oration limits the number of represent tors assuring their followers that the tatives to sixty, and that number is Democratic party is dead. It establishes one's genius for originality. The complexion of the House is as It has not been repeated more than one million times; and each time the Democrats, 19; Republicans, 17; followers laugh and cheer; they are so glad the Democracy is dead! there is the spirit of Democracy that will endure and yet achieve man's enfranchisement and elevation.

#### Local Option.

The San Francisco Alta of a recent date has a long article in review of the various industries and interests in San Francisco that would be sericlassification of the members to show performed this analytic task in his ously affected, if not destroyed, by their political standing, but the del- most felicitous manner. That plat- the success of local option in that city. If the figures of the Alta are ies, brewers' materials, syrup and glass factories, \$16,651,756; there are employed in these several industries 11,562 men; to these men there are paid annually as wages, \$10,682,-662. This is the amount of the capital invested, the number of men employed and the wages paid in San Francisco alone by the proprietors of the several classes of business

But these departments of business are not limited to the city. They extend in their ramifications to remote parts of the country and affect interests and industries that many may not even suspect. Thus it is estimated that the breweries of San Francisco use annually, 28,260,787 pounds of barley; that the malt nouses use 22,080,000; and that the distilleries use (of grain) 29,800,000 vield of 20 bushels to the acre it requires 83,479 acres on which to produce it. We have not space for the detailed statements of the Alta, but the above figures will suffice to give some idea of the extent of the interests in San Francisco, that would be affected directly by the adoption of the no license policy, while they will also suggest some of the interests that would be affected indirectly.

### Not Entirely Dead.

A Washington correspondent calls attention to the fact that the Civil Rights bill is not entirely dead, having merely been left with other unfinished business at the close of the session. At the beginning of the next session it will be in the power of a bare majority to take up a bill on the speaker's table, the two-thirds rule having been adopted only to ward the close of the session to prevent interruption of other business. There is an impression also prevailing in this connection that the two | That school failed. Then the wise regular sessions of Congress are independent of each other, and if any business is left unfinished it must be originated again at the next ses- yard, there was no more trouble. sion. A joint rule of the two houses, however, provides that after six days from the commencement of a second or subsequent session of Congress all bills, resolutions, or reports which originated in either house, and at the close of the next preceding session remained undetermined in either house, shall be resumed and acted upon in the same manner as if an adjournment had not taken place. It will thus be seen that next in Shreveport intolerable. Air and winter the Civil Rights bill will begin water were polluted. The festering just where it left off when Congress adjourned. At the beginning of the next session it will be in the power of a majority, and unless the fall elections change the present aspect spread to other places, where the of the House the bill will be passed, unless the minority have the parliamentary skill to starve it off, at least until it is found necessary to put the two-thirds rule into operation.
