This, therefore, is a period of the year when the inhabitants of such districts should prepare their system to meet the unwholeome condition of the atmosphere, by a course of tonic and alterative treatment. Foremost among the invigorants, recommended by time and experience, as a means of fortifying the system against all ndemic and epidemic maladies, stands Hostetter's Stomach Bitters. Whoever have traveled in the West or South knows full well the esteem in which this incom-parable preventive and restorative is held broughout those regions. It is literally a domestic staple in the swampy and mephitic localities which lie on the borders of many of our large rivers and in the neigh-borhood of our Southern bayous and lagoons. Now is the time when the inhabit ants of all malarious districts should put their system and constitutions in good de ensive trim by a course of this powerful vegetable antidote. By this means the feeblest resident of an unhealthy soil may escape the sickness, which without the aid of this potent ally of nature, will be apt to overtake the strongest. Chills and fever, lious remittents, constipation, rheumasm, dyspepsia and many other complaints are frequently brought on by the aprices of temperature and alternations of very cold and excessive moisture com-

Ayer's Ague Cure, Chill Tever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise

from malarious, marsh, or miasmatic

ance, founded on proof, that no harm can arise from its use in any quantity.

That wai-h profects from or prevents this disorder must be of immense service in the consumation where it provails. Freezation is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distensar. This "Cure" expels the minematic poison of Freez and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever ver discovered for this chass of complaints, but also the chaspest. The large quantity we sup-

ver discovered for this chass of complaints, but also the chespest. The large quantity we supply for a dollar brings it within the reach of everybody; and in bilions districts, where Fever and Ague prevails, everybody should have it, and use it freely, both for care and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinize or mineral; consequently it produces no quantion or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Nouralgia, Rheumatista, Gout, Headache, Elindaess, Toothache, Ezrache, Catarrh, Asthma, Pulpitation, Painful Affection of the Spleen, ity steries, Pain in the Bowels, Colic, Paralysis, Hysteries, Pain in the Bowels, Colic, Paralysis, and dorangement of the Stomach, all of which, when originating in this cause, put on the in-termittent type, or become periodical. This 'Cuan' expels the poison from the blood, and consequently cures them all alike. It is an in-valuable protection to immigrants and persons travelling or temporarily residing in the mala-rious district. If taken occasionally or daily while exposed to the infection, that will be ex-creted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than core; and few will ever suffer from Inter-

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity, and profucing many truly remarkable cures, where other medicines fail. WOULD ANNOUNCE TO THE CITI-that he has purchased, fitted up and filled Hair Vigor, on Main Street, between Third and Fourth,

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original

color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the forma-tion of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HALR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy
