It is seldom that we notice anything in the medical line, nor would we now. unless we could be convinced that we are not doing our duty as a journalist Sarsparilla, has began a good work There is no question as to the result of this medicine if persevered in. It is a sure cure for scrofula, rheumatism. Salt Rheum, and indeed all complaint arising from vitiated or impure blood It is just what a good physician would prescribe for these complaints, and we confidently recommend it as being the best article now in use. Dr. Henry' Cough Balsam is the most affective remedy for affection of the threat or lungs that we have ever known. It contains no deleterious drugs, and can be taken with impunity and certainty of relief. For the cure of coughs colds sore throat, etc., it stands without a rival. Dr. Henry's Liniment as an alle viator of pain, is unrivaled by any preparation before the public; the most skeptical will be convinced by single trial. Ask the Mothers. Women have better opportunities for observing the enects of medicine, than men. This is especially true of mothers, who note with a keenness born of affection, the operation of the remedies they administer to their children. Now ask any mother who has used Hale's Honey of HoreHound and Tar in her family as a cure for coughs, colds, hoarseness, whooping cough, croup or influenza, what she thinks of it. The answer in every instance will be that she has found it the most effective preparation of its kind she has ever tried or heard of. PIKE'S TOOTH-AGHE DROPS-Cure in one

THE SUN. WEEKLY AND DAILY FOR 1875.

THE APPROACH OF THE PRESIDEN-TIAL election gives unusual impor-tance to the events and developments of 1875. We shall endeavor to describe them fully, faithfully and fearlessly. She Weekly Sun has now attained a cir-culation of over seventy thousand, conias culation of over seventy thousand copies. Its readers are found in every State and Territory, and its quality is well known to the public. We shall not only endeavor to keep it fully up to the old standard, but to improve and add to its variety and power.

The Weekly Sun will continue to be a thorough newspaper. All the news of the day will be found in it, condensed when unimportant, and at full length when of moment, and always, we trust, treated in a clear, interesting and instructive manner. It is our aim to make the Weekly Syn the best family newspaper in the world. It will be full of entertaining and appropriate reading of every sort, but will print noth-ing to offend the most scrupulous and deiecate taste. It will always contain the most interesting stories and romances of the interesting stories and romances of the day, carefully selected and legible printed.

The Agricultural Department is a prominent feature in the Weekly Sun, and its articles will always be found fresh and useful to the farmer.

The number of men independent in politics is increasing, and the Weekly Sun is their paper especially. It belongs to no party, and obeys no dictation, contending for principle, and for the election of the best men. It exposes the corruption that disgraces the country and threatens the overthrow of republican institutions.

the overthrow of republican institutions. It has no fear of knaves, and seeks no favor from their supporters.

For Diseases of the Throat and Lungs,

such as Coughs, Colds, Whooping

Cough, Bronchitis, Asthma,

Among the great discoveries of modern science, few are of more real value to mankind than this of feetual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does

surely and effectually control them. The testimony of our best citi Zens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Toront and Lungs beyond any other medicine. The most daugerous affections of the Pulmonary Organs vield to its power; and cases of Consumption, cured by this preparation, are public-ly known, so remarkable as hardly to be behevel, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and confinces the most sceptical. Every family should teep it on hand as a protection against the early Mercurial affections, Serefulz, Sait
