The following have been bound over to appear before the Grand Jury: State of Oregon vs Daniel Burns, as sault with a dangerous weapon. State vs John Joyce, assault with intent to kill State vs Wm. Franklin, seduction.

Fine Fruit.

During last season Messrs. Lovejoy & Co. below this city were extensively engaged in patting up fruit in cans. They met with good success and their fruit font a ready market. They out up peaches, plums, blackberries and other fruits, which have been pronounced by good judges to be equal to any imported. About 600 dozen cans of peaches were put up, and a greater amount of other fruits. Having met with encouragement and a ready sale for all that they put up last season, they propose to engage in the business more extensively this season than last, thousand cans per day, and it is their intention to supply the home market, This is an enterprise our people should encourage, and by so doing, keep thousands of dollars in our State which have heretofore gone to San Francisco to enrich that place. Our fruit is of saperior quality, and there is no reason why we should not supply ourselves in this article. It is the intention of Messre Lovejoy & Co. this season to extend their business to putting up all kinds of vegetables in addition to fruit. We have tried some of the fruit put up by them last season, and can recommend it to the public. It is superior to any other, and the price is less than the imported. Orders will be supplied either by Messrs, Lovejoy & Co., addressed to them at this place, or Messrs. Corbitt & Macleay, at Portland. We trust our merchants will in future hand out to their customers nothing but Oragon put up fruits and vegetables, thus advancing an important interest in our State.

SERENADE. On last Thursday even- George Pease, who is competent to run Ing, 15th inst., the Oregon City String a boat anywhere. Band re-mired to the residence of Mr. Robert Potter, accompanied by some of our citizens, and gave him a musical bl-sw out upon his fifty-ninth anniversary, After a few sweet melodious airs, Mr Potter made his appearance with a graceful invitation to repair into his house. Upon compliance of said invitation the "growd" was surprised to find that Mr. Potter, an old pioneer of Oregon, having nearly reached three score years, was not unmindful of his fliends as before them was spread a splendid repast of wines, champagne, eigars, cake, etc., which the company enjoyed. Toasts were drank with g od will and friendship to the nost; a few more tunes, and a separa-tion took place at a late hour of night with kindly feelings and a heartfelt wish that his days may be strewed with peace, pleaty and happiness.

DRUNK .- A fellow named Frank Wilbur was arrested last Monday for lying drunk on the streets. He was tried the next day before Recorder Athey and fined \$5 and costs. Not having the necessary coin to liquidate, he was committed to jail for five days and to work on the streets. But not much work was there in him. Street Commissioner Meldrum, on Wednesday, borrowed a large sized pistol, freshly capped it, and started out with his man; but work was not to be had, and he freely threatened to take his departure. The sight of the big pistol probably prevented him from making the attempt. Had he known there was no charge in the pistol, Mr. Meldrum, in all probability, would not be further troused with the rebellious chap But he was taken back to jail, where he now lingers on bread and water for the term of his sentence.

CITY ELECTION. The election for city officers takes place on Monday, May 3d. The sonce question having been taken out of the hands of the Council. it appears there is but little interest taken in the master. Would it not be well for our present city parents to give an account of their stewardship before they ask or a re-election? One thing, however, ought to be decided at the next election, and that is, that no man should be elected who is not in favor of turning over the school house to the district. We shall have more to say next week on this and other mat-

pears to be the b have yet seen, pure. The ledg over one hundred feet in width, and evidently inexhaustible. The rock Las not yet been tested but the indications are that it will prove to be very rich, and being located near the river and easy of access, cannot fail to be of great value, and must attract capital to work it out.
