#### Corruption Its Record.

If there were no other reasons why Mr. Warren should be defeated, the plank in the platform on which he stands endorsing the Federal Administration ought to consign him to private life. Never in the history of our Government has there been so much corruption in official stations as at present, and yet we find the office-holders' candidate pledged to an endorsement. Let us see some of the rascality which is sanctioned by this resolution: The Radical Administration has a history for venality April, and it can no longer act as a and jobbery in which every member | bug-bear among American voters. of the Administration has discredibirthday close at hand, with the notably figured. brought all the woe and trouble upon us, and which is upheld and sanctioned by the Radical platform. A vote for Warren is a vote for the National Administration. He is its representative and as such, he must go down to the political grave which awaits all those who dare to stand before the people on a platform which even looks toward an endorse-

Wake Up.

As we have held from the beginning of this campaign, Mr. Warren is a man of no ability. His speech at Portland last Monday evening manifested this proposition in every sentence. That old war whoop of the Radical demagogues, "will you trust the traitors with the ship of State?" was freely indulged in. My dear Mr. Warren, were you aware that the American voters are sick and tired of this once settled question? Have not heretofore Republican States proved it at the ballot box? Even Massachusetts, the home of abolitionism, is nauseated with the oft opened wounds of our fraternal strife, goning Democratic, and embracing her Southern brothers in friendship and love, at the very cradle of our common liberties.

Bunker Hill, is proof of it. At a time when the hand of friendship is freely extended towards our defeated brothers by the people, shall the Radical aspirants for office chill the outpourings of warm desire for reconciliation by their cries of "traitor," "thief," "rebel?" No! Mr. Warren, you must awaken to the issues of the day. This political scare crow received its burial amidst the enthusiasm of Union and Confederate soldiers on the 19th day of last With our nation's hundredth
