

THE ENTERPRISE.

OREGON CITY, OREGON, OCTOBER 29, 1875

OREGON CITY TRIUMPHS.—We find that in our issue of last week we fell very far short of giving our city full credit for its different specialties. In credit for flour was awarded the Oregon City Mills, and for the late contest at the State Fair, the Oregon City Flouring Mill, and for excellence in bread baking, was presented the first prize. With the gold medal for fruit drying, and with the best flour and champion bakery for a small place Oregon City has worked wonders, and we are all proud of her achievements, and sanguine as to the Centennial and its results.

DEED.—Mr. E. D. Williams, in the twentieth year of his life, died on Friday last at the residence of his father, in Salem. He leaves a young wife in Salem and relatives in this city to mourn his loss. Deceased was a young man of exemplary instincts and of an extended friendship, as the very large funeral which escorted his remains to the grave will demonstrate. He was at one time engaged on the ENTERPRISE and the intimacy naturally following has been confirmed in our very high opinion of his personal merit and moral worth.

LETTER LIST.—Letters remaining in the Postoffice, at Oregon City, October 29, 1875: Austin, Wm. P.; Avery, W. A.; Black, M. J.; Borden, Miss; Elin; Cassidy, Adam; Cassidy, Mrs. Annie; Danson, John; Hayes, Rev. T. P.; Hamilton, James; Hays, Miss; Johnson, Miss Sarah; Thompson, David; Wyant, James J. Also letters held for postage.

DECLARATORY.—On the night of Wednesday the 26th inst., the house of our old citizen, Mr. William Holmes, was broken into and robbed of two twenty-dollar pieces. The silver ware was all packed ready to be carried away. The burglar who took this part of the "swag" behind him.

THE MARKETS.—Legal tenders, buying 50¢; selling, 50¢. Wheat in Oregon City advanced 10¢ to 95¢ per bushel; oats 50¢; corn 50¢; eggs 25¢ per dozen; chickens, spring, \$2.50 per dozen; grown, \$3.00 per 50 lbs. Butter is scarce at 30¢.

CITY OF SALEM.—On Thursday morning last the new and very handsome steamboat, the City of Salem, passed through the locks at this city. She draws very little water, so little, in fact, that it is thought that she will be occasionally run on land, but not on rocks, we hope.

A CONNECTION.—A Sunday correspondent writes us that the communication we published last week concerning some unnatural people who danced while their little child's soul was taking its flight, is false in every particular, and that our informant is blinded by some old grudge.

CONCERT.—On Saturday evening next a concert will be given at Pope's Hall, for the benefit of the Congregational Church. Miss Emma Miller, who has just returned from the Boston Conservatory, will be one of the principal performers.

RELIGIOUS.—At the M. E. Church in this city, Rev. G. W. Day, pastor, services on next Sunday at 10:30 A. M. Subject, "Giving and Receiving Gifts." Also, union services in the evening at 8 o'clock, preaching by Rev. H. H. H.

RETURNED.—Mr. Geo. Newman, who has been in Utah for the past six or seven months on a surveying expedition, returned home last Wednesday, looking as handsome as ever. He says there is no place like home.

LIFE INSURANCE.—The Mutual Life Insurance Company of New York has appointed as its agents in this city, Messrs. Ward & Harding. A more judicious selection could scarcely have been made.

A PRESBITERIAN SHARP.—On Friday last Mr. Fred. Chapman caught fourteen fine trout which he very considerably shared with us. "Lay on Macduff and so forth."

CEREBRAL LOCK.—Father Gibney, the very worthy pastor of our Catholic church, had the good fortune to win a \$100 piano at the Ladies Fair at Salem.

FINE PHOTOGRAPH.—We have just received a fine cabinetized photograph of the Palace Hotel, through the kindness of the well known San Francisco artists, Messrs. Bradley & Rufous.

A CALL.—We had a call this week from Mr. M. H. Abbot, formerly of the Psalton Tribune, but now editor and publisher of the Vancouver Register.

THAMES.—Some very fine Bartlett pears, the second crop of this year, raised by W. H. Marshall of Canemah, have been placed on our table.

THE MAZY.—There will be a dance at the Library Hall next Thursday evening.

A PATRIOT.—John Myers is the father of a new twelve pounder.

The rabbits have been troubling the grapevines of Southern Oregon this year, by nibbling the young sprouts, while the squirrels have been helping themselves to the fruit.

The Monmouth Messenger says: "There is a running spring on the Luckiamute upon which we saw oil in profusion. We see no reason why Oregon, which is so rich in everything else, should not have stored away in her stone coffers plenty of coal oil, and we think it probable that some of it will be found near this same spring."

A man was fined \$50 and costs last week at the Dalles, for throwing pepper on a ball-room floor just before the dancing was to have commenced.

The School Fund and the Bible. In a telegram dated the 21st of October we are informed that "the great hall of the Cooper Union was filled with people who desire that the school fund shall not be used for sectarian purposes, and that the Bible shall be read in the public schools."

What a contradiction! They insist that the school fund shall not be distributed among the denominational schools, and then say that the Bible must be read in every public place of learning. Is not this the very quintessence of sectarianism? They lay down the law as to what the sect shall be, and then say that all other religious bodies must adapt themselves accordingly. In other words they say, only those who believe in the Bible shall have any of the benefits derivable from the school fund. If this is not a sectarian appropriation, and an appropriation on a grand scale, then we admit our ignorance concerning this much mooted subject. Catholics, Hebrews, Unitarians, and the various skeptical creeds, cannot in conscience accept the Bible, and these fanatics at New York insist upon ramming it down their throats, and upon keeping all the school fund for their own particular use. In this matter of church and school, there are but two courses which can, with justice toward all, be followed. Either we must have a complete secularization in schools, or else religion in every shape must be entirely eschewed in the school room and left to the fireside and the Church.

California at the Centennial.

Yesterday a representative of the Bulletin visited the rooms of the Central Pacific Building on Townsend street, where the superb collections of Pacific coast specimens for exhibition at Philadelphia are being stored away and classified.

For the past 18 months the land department of the corporation has been industriously seeking out and gathering together the finest mineral, coral, ornithological, and zoological collection ever secured on this coast.

Besides this, the exhibit will embrace—in fact, already embraces—some of the largest collections of marine, land and fresh-water shells ever shown. Moreover, specimens of all the coals of the Pacific region have been secured. They represent fully 100 different grades, from the finest shasta to the commonest slate-mixed stone. The timber of the coast is represented by specimens, green, polished and petrified. There are also sent from old monarachs of the forest, whereupon approximate estimation of the value of the timber resources made in the rings which indicate the yearly growth. To convince the incredulous ones of the accuracy of estimating the moisture of past decades and centuries by this method, a cut in a log, which was taken from a tree planted 170 years ago, and the records of rainfall thereon engraved compared with the annual registers preserved on paper by official meteorological societies.

It is an easy task to satisfy the observer of the rain, and the estimates is hardly perceptible, and on this basis the amount of moisture in the past is approximated. It would require the space of an ordinary volume to mention the full list of specimens embraced in this collection, for they represent birds of every plumage, animals of every species, together with curious alkaline formations, fossiliferous, marble polished and rough, sandstone pumice, honey-combed lava light enough to float, fossilized fish, borings from artesian wells, curious rocks of various shapes, fossil reptiles, entomological specimens, &c. In the line of cereals the tallest corn-stalks and the heaviest sheaves of barley and wheat, together with threshed grain in properly labeled sacks, are fully represented.

The mineral products of California will be indexed by samples of copper and silver ore, gold quartz, nuggets, &c.—S. F. Bulletin.

Another Exposure. Almost every day the telegraph informs us of the rascality of some Radical officeholder, or the unearthing of some great Radical fraud. For ten years Pennsylvania has been under the control of a Radical ring that in its magnitude is excelled by none in the United States. Bill Mahan, ex-District Attorney of Philadelphia, is generally looked upon as the Boss, while every Republican officeholder throughout the State is a servant of his "during good behavior." Being an astute criminal lawyer, he is fory enough to cover his tracks; but the following dispatch, bearing date of the 21st inst., shows to what extent his robberies have been successful, and how closely he has been tracked to his lair.

The committee appointed by the President on Saturday, to investigate the affairs of the treaty, have agreed upon a report, stating that their investigation has developed the following facts: That from 1861 to 1874 there appears to be a yearly overcharge of the amount of the public debt, the different treasurers taking credit for paying more interest than the State debt owes. The aggregate thus unlawfully taken from the State treasury in eleven years would amount to \$123,921. Excesses of from 1870 to 1874 there appears to have been an excess premium charged in purchases of gold to pay interest on gold bearing bonds, amounting to \$121,422. Many other minor frauds come under the notice of the committee. In referring to the action of the ex-treasurers in refusing to appear before the committee, the report says: "Certainly it is fair to assume the charges are true, as the treasurers do not appear when lawfully subpoenaed, and explain or deny them."

The following is a report of the population and products of Umatilla county, as compiled by the assessor: Total voters, 1,368; males 21 years and upward, 1,307; males under 21 and over 10 years, 503; males under 10 years, 721; females 18 years and upward, 820; females under 18 and over 10 years, 364; females under 10 years, 711; acres under cultivation, 114,745; bushels of wheat raised, 137,754; oats, 73,500; barley, 46,166; rye, 2,891; tons of hay, 11,969; pounds of wool, 322,377; bushels of corn, 8,538; number of sheep, 80,241; horses, 7,449; hogs, 2,347; cattle, 28,192. Excess of live stock, 1,207; bushels of potatoes, 24,931; apples, 13,818; feet of lumber manufactured, 1,369,000; number of mules, 166; pounds of cheese, 3,800; butter, 73,624.

Since the completion of the Albany and Santiam canal, all, or nearly all, the factories, mills, foundry and warehouses in Albany use water as power for propelling their machinery. The place boasts of more water wheels than any other city in the State.

Professors from coughs, colds, bronchitis, croup, whooping-cough, will find relief in Dr. WELLS' BALSAM OF WILD CHERRY. It is a cure for nearly half a century, and still maintains its long established reputation as the most reliable for all diseases of the lungs and chest.

SELF-MURDEROUS NEGLECT.—To suffer cold to accumulate on cold, or a cough to continue, is to invite the attack of WELLS' BALSAM OF WILD CHERRY. It is a cure for nearly half a century, and still maintains its long established reputation as the most reliable for all diseases of the lungs and chest.

IMPORTANT.—Endorsed by the Medical Profession, DR. WELLS' BALSAM FOR THE LUNGS cures Coughs, Colds and Consumption, and all disorders of the Throat and Chest. DR. TOWLEY'S TOOTHACHE ANODYNE cures in one minute.

MARRIED. On the 25th, at the residence of the bride's father, by J. W. Graham, J. P. M. Joseph Schuere, of Marion county, and Miss Ann Franklin, of Clackamas county, Oregon.

The Great Anti-Periodic.

The certainty and promptitude with which Hostetter's Stomach Bitters conquer the most obstinate cases of malarial disease, and the complete protection which they afford the system against the miasmatic poison which impregnates the air of low-lying, marshy localities, stamp them as the foremost of American antiperiodics. Wherever on this continent fever and ague is a regular visitant—in the bottom lands of the West, and in all the malarial districts of the West, and in all localities in the Eastern and Middle States where malaria is prevalent, or where it is recognized as the only true specific for the disease, and its most reliable preventive. They are, moreover, a safe and agreeable as well as a certain remedy, and on this account are immeasurably superior to the preparations of quinine, arsenic, bismuth, and other mineral poisons mistakenly administered. They are, moreover, a safe and agreeable as well as a certain remedy, and on this account are immeasurably superior to the preparations of quinine, arsenic, bismuth, and other mineral poisons mistakenly administered.

Unfortunately, fever and ague, and the other febrile complaints generated by malaria, are not the only evils which result from it. A great variety of its orders are superinduced by the irritation which it causes. Among these are neuralgia, rheumatism, gout, periodic headache, palpitation, painful affections of the spleen, and various derangements of the stomach. It is traceable to malaria, the above affections are apt to assume, like the disease which originated them, an intermittent type; that is to say, they recur at regular intervals. Hostetter's Bitters, however, which have been all by banishing the miasmatic virus from the system.

The Word "Sododont." Which has already become a household word, is derived from the Greek, and composed of two words, Sodok and Odont, "Sodok" translated, means to preserve, and "Odont" means tooth, "SODODONT" a preserver of the tooth. And it is true to its name. It beautifies and preserves the teeth, hardens and invigorates the gums, and corrects all impurities of the breath. The odor of this pure preparation is so delightful that it is a luxury to apply it. It is as harmless as water. Sold by druggists and perfumers.

NOTICE.—Another lot of New Goods arrived at J. SELLING'S by last steamer. Goods will come and go, and be sold cheaper than the market. Call early and select your fall and winter supply from the large and well selected stock of the latest styles of dress goods, clover, ladies' boys' and youth's clothing, ladies and men's shoes, hats, and every article of clothing, at the old corner of S. W. L. SELLING. Goods must be sold regardless of cost.

Dancing School. Prof. J. C. Ryder, lately arrived from San Francisco, proposes opening a dancing class in this city, on or about the 28th of October. He charges \$1.00 per lesson, and has, in fact, a small price for the benefit to be reaped.

POND'S EXTRACT.—"Staple as flour" is what druggists say of POND'S EXTRACT, which may be relied on as the best Family Medicine for the cure of many classes of diseases. Sent to the POND'S EXTRACT DEPOT, 151 N. 2nd St., New York, for a book free, giving its history and uses, and ask your druggist for it when you need a Family Medicine.
