OREGON CITY, OREGON, NOV. 19, 187 Indifference in Politics.

that the entire voting element of this country be absolute working politi- expected that the country will imcians, - is that any reason why people should absent themselves from the palls entirely, ignoring their own best interests, and refraining to give utterance to their heart's voices and honest convictions? People say that the tracks are so crooked on which politics are new run, that no man desiring safety to his reputation can allow his name to come before the people as a candidate for public office. If this be true, upon whom, The oldest of these lads is under pray, Is the blame to fall? Why, upon those apathetic voters, who keep away from the polls, eschewing primaries and canenses, and allowing the making of tickets, platforms, and parties to fall into the hands of incompetent, and many times unscrupalous men. If we mistake not, it was Addison who wrote that stirring appeal in the Spectator, to the good men of two contending parties to unite for the overthrow of the knaves, who, had crept into power during the immobility of the better classes. We can scarcely dare to ask this much, for there are good men in both of the great parties,-men who conscientiously hold certain principles, and who truly think that through the medium of their party is the Republic only salvation-men, in a word, who would sacrifice anything rather from their honest convictions. Consequently, we do not ask these omen for an ad interior relinquishment of their principles. All we desire is in the State prison. With bair cut it not be better-a more humane just begin to learn how to study at that the good Democrats and good short, and dressed in the livery of p'an, too-to have them executed at the end of three months. News of the Wreck.

Three bodies and two trunks have been picked up by the Gussie Telfair and the Oliver Wolcott. One defeated by the coalition formed by of the bodies is George Vining of Puyallup, and another supposed to be Mrs. Lawson of Victoria. The Wolcott has taken Indians and canoes to search along the shore.

Neil O. Henley, the quartermaster saved by the Wolcott, says the second mate told him that he thought the mate, with eight of the crew in a boat, got clear of the ship. They may be heard from yet.

His statement substantiates Jelly's story that the loss of the Pacific was the result of a collision. Of the eight who were on the raft originally with him, he was the sole survivor. His cries attracted the attention of the passengers of a passing steamer, and a boat being lowered he was

saved.

The Oliver Wolcott steaming up Barclay Sound, the first Indian village was hailed, and a canoe came off containing a white man, who came aboard and introduced himself as the first mate of the ship Orpheus. stated that he had been run into the Thursday night previous by a steamer, and was wrecked on the following Saturday morning on an island near by Copper Island. The captain and crew had got ashore safely, and were encamped further Proceeding in the direction indicated, another cance approached, in which was Captain Sawyer of the ship Orphens. He gave the following account of the disaster: On Thursday evening he was approaching the Cape, and was by his reckoning, about twenty miles off, with a fresh southeast breeze, steering steamer's head light off the port bow, and then immediately after straight ahead. He could see neither of her side lights, and could not make out which direction she was coming. turned his ship's head off shore. The steamer, by this time, had got her bow struck his vessel a glancing blow just abaft the fore chains. crushing in the rail and breaking his called to them to lay by him, and send him a boat, as he then supposed ther did he see any one on her deck. She drifted or steamed away, he was the Oregonian, seems the most prac- detrimental to the real progress of saw a flash light, which he took for saw her no more, and his ship at that time demanded all his attention. He lay to the remainder of sail for the land, allowing for two the parents should do all in their knots northerly set off the current made a light, which he took for Cape Flattery, not knowing that there was a light on the coast farther north, room he must be supreme, and any nor did his latest sailing make note of any. He allowed five miles clearance for Duncan rock and considered himself safe after entering the straits of Fuca, when about 5 o'clock Saturday morning, his ship scraped that there is good reason for com- over a reef, and immediately after plaint, then the teacher should be struck her bow on a rock, stuck fast seen in person, and that without the Flattery is on Cape Beale, the enknowledge of their children. Commissioner Burdett, of the general land office, will, in his forthcoming report, strongly recommend that all timber land offered by the goverument be appraised and thrown open to purchasers at not less than their appraised value. He is of opinion that unless they are thus placed under private gnardianship the tine forests of the country will soon be wantonly exhausted by lumber companies and speculators, who are now stripping the land under cover of out any pretense of accordance with law, while the government derives no revenue from its property, and the country sustains almost irreparable damage from the sweeping denudation of large areas of its water sheds, he will also condemn the practice of extending the system of subdivision surveys over immense bedveyed as have any attractions for settlers. The recommendation of his The following bills have been ap- predecessor that the pre-emption laws proved by the Governor of Washing- be abolished and the homestead syston Territory: Disposal of lots at tem be made the only method of ac-Vancouver, sale to persons; sale of quiring title to agricultural lands is
