The history of the Emma Mine, as near as we can learn, is about as follows: It was originally discovered in 1869 by R. C. Christolm, from Elgin, Ill., and was "located" in February, 1870. The name "Emma" was suggested by Mr. Christolm's son, in being the name of a little sister at home. A sixth interest was bought in 1870 by Messrs. Walker Brothers for \$30,000. John E. Lyon had put in a small amount of money with Christolm and his partners, and when the mine was discovered came in and claimed a share, but didn't get it. Trenor W. Park and Henry Baxter bought a half interest in 1870 for \$375,000. The original proprietors all sold out in 1871 and in 1872 and got rich.

Decay of the Teeth. Arises from various causes, but principally it may be attributed to early neglect or the indiscriminate use of tooth powders and pastes, which give a momentary whiteness to the teeth while they corrode the enamel. The timely use of that delicate aromatic tooth-wash, FRAGRANT SOZODONT, will speedily arrest the progress of decay, harden the gums, and impart a delightful fragrance to the breath. It removes those ravages which people sustain in their teeth from the use of sweet and acid articles.
