Six hundred workmen in the stone quarries at Lemont, Illinois, struck on the 20th. They became so boisterous that the police were summoned and fifty of them arrested. The naval appropriation bill is complete. It appropriates \$14,000,000. The estimates by the department were \$21,000,000. Last year the appropriations were \$17,000,000.

A. T. Stewart's will has been admitted to probate in New York. The bulk of his immense estate is left to his wife, a cool million to Judge Hilton, and for charitable objects—nothing. The last dispatches between England and America show extradition as a dead letter. The treaty may be considered abrogated. England's position is regarded as singular as it is untenable.

SUNSHINE.—Did you ever notice what a different aspect everything wears in the sunshine to what it does in the shadow? And did you ever think what an analogy there was between the sunlight of the cloudless skies and the sunshine that gleams into the darkened chambers of the human soul? How bright and beautiful are the golden beams that break through the riven clouds to light up the work again after a succession of dark and stormy days!

How peaceful and happy are the blessed words of hope and cheer that touch the heart and fill the soul with emotions of peace and joy after a long period of sorrow! There are none living who do not, in a greater or less degree, have an influence over the earthly happiness of others. The sense of "contributing to the pleasure of others augments our own happiness, usefulness, Christian charity and loving kindness are sunbeams of the soul.

Philadelphia was greatly excited recently by the announcement that a North Carolina gentleman had suddenly discovered that he was the owner of the tract of land which the buildings and grounds of the Centennial Exposition are situated. His deed is dated December 4, 1794, and calls for over 400 acres of land. The happy holder of this property is on his way to claim his own, having apparently delayed his descent on Philadelphia until valuable improvements were completed. In the meantime, a Philadelphia lawyer of credit and renown states that the North Carolinian's acres are seventy miles "up the creek." With cruel irony this eminent authority adds that his land, which originally cost one dollar an acre, is worth just about what it was in 1794.

The New York Mail says that many of the brown stockings worn by ladies are so poisonous as to endanger life. Those who wear them assume an unlovely yellow color. You've got your own hair, dear reader. Why don't you see a lady friend assume an unlovely color, you should pull her stockings right off, and light out for a stomach pump.—Dunbury News.

Do you know how a church fair works? The principle is a very ingenious one. Some ladies borrow money from their husbands, buy materials and make up fancy articles which they give to the fair. Then they change places, borrow more money, and buy the articles back again.

What a girl should be, alphabetically: Amiable, Bland, Charitable, Domestic, Economical, Forgiving, Generous, Honest, Industrious, Judicious, Kind, Loving, Modest, Neat, Obedient, Pleasant, Quiet, Reflecting, Sober, Tender, Upright, Virtuous, Watchful, Xemplary, Y's, and Zealous.

"When," he said violently, "when are you going to pay me that little bill? I've dunned you till I'm tired and mad. Now, I want a positive answer—when will you pay?" "By Jove?" was the reply, "you must take me for a prophet. How can I tell?"

A young lady dressed in much false hair was sitting at the piano, and when the mother summoned her to assist in some household duties, her rosy lips opened pointingly and snapped out, "O, do it yourself!" And then went on singing, "Kind words can never die."

CHURCH PRIMA DONNAS.—"Who is now the prima donna of your church?" asked a Fifth avenue swell the other day. "I don't remember the name," was the answer, "but she sings Mme. Archidine in opera bouffe admirably."

Waists of evening dresses are now laced at the back. This is important, for in case a young lady is taken with shortness of breath a man ought to know where to strike for her relief the very first pop.
