THE ENTERPRISE. The Oregon City Seminary,

The last term of the school year closes The whole number enrolled during the We regret to say that many parvear. ents in the city imagine that the last two or three weeks of school is unimportant to their children, and consemently allow them to remain away iltogether, or to be very irregular. The upils that lose the review at the end of the year invariably at the commencement of the next term find themselves far behind those who attend regularly. This is disconraging alike to teachers and pupils. The attendance of the enalled number should at least have been 180 daily. During the vacation we supoose some repairs and improvements will be made, which will make our building look more like the school houses of other cities. The public buildings of Oregon City are as well fitted up for the comfort of those who use them as the places of the same kind are in other cities of the State. Were a stranger to visit our churches, hallseand reading rooms, and keep away from the Seminary, he would carry away with him the idea that we are a people who are fully up with the age; but let him once put foot inside school house, what a revulsion of feeling; a species of disgust would come over him. Instead of living in the 100th anniversary of our glorious Republic he would be inclined to think that his was a case similar to Rip Van Winkle, only reversed, and that he was in reality living in the first. If we require good furniture in our churches. where we only sit three or four hours a week, how much more do our children require good, comfortable desks and seats, which they are obliged use ten times that number of hours. citizens to visit the school, say at least once in a life-time, and they would be astonished to see what kind of a building their children have had to occupy

OFF FOR VICTORIA.-Prof. Nicholson, who has occupied the position of principal at the Seminary for the past two years, leaves to-day (Friday), for Victoria, where he intends to make his home for the future. We understand that it is his intention to quit teaching, and try his hand at commercial pur suits. "The Prof. has shown himself to be an efficient teacher, and whatever pursuit he may follow, he will have the best wishes of our citizens for his success. Victoria may well feel proud of acquiring such a valuable citizen and thorough gentleman as Mr. Nicholson.

MR. A. C. BAILEY has laid on our table a curiosity in the shape of a last year's potato, which was planted some time since, but failing to make an appearance above ground, the gentleman thought it would be well to investigate. The potato seemed almost as sound as when first put in the ground, but on cutting it open, we found a thrifty young potato about the size of a hen's egg firmly imbedded in the center.

LOST IN THE WOODS .- A gentleman just in from the Molalla gives us the following: About two weeks ago, a young man named Calahan, accompanied by a younger brother, went out for a deer hunt. It was agreed that the vounger brother should take the dogs and drive up the deer, while the other would go to a certain stand. When the one who had the dogs in charge arrived at the stand, there was no sign of his brother. He hunted around for an hour or two, firing off his gun at intervals, but the clder brother failed to put in an appearance. He returned home and informed his father of the terrible loss, who scoured the woods far and wide the next day, and failed to find a single trace of his missing son When the gentleman left, a party of about sixty were in search of the lost boy, and we hope that before our next issue we shall be able to chronicle his safe return to the grief stricken parents.
