The Avalanche says grim visages of approaching winter have already begun to waylay the people of Silver City. On the 8th of August it snowed at a lively rate. The question arises whether it was the last snow of the past or the first of next winter.

The Walla Walla Watchman says there is a strange disease among horses here which, although not fatal, renders them nearly useless. The flanks swell up and the animal seems to suffer from a high fever, becomes weak in the loins and staggers in its walk.

The Washington Standard, of Olympia is told of a farmer in Thurston county who has held his wool crop for the last three years, under the belief that staple was much higher in the East than here, and that the local traders were not offering him a fair price. He don't believe the newspapers give correct market reports, but are in collusion with the dealers. In the meantime he buys his supplies on credit and pays interest on the debt thus made, securing the same by mortgage on his homestead.

A correspondent writing to the Pendleton paper from Lena, under date of August 15th, gives the following particulars of a severe accident: Miss Alice Ayers (living on Little Butte creek), had her collar bone broken last Sunday while on her way to a neighbor living close by. She had just passed a band of Indians and was approaching a pack animal that was coming leisurely along the road. When within a few yards of the packed beast the pony she was riding seemingly noticed the animal for the first time, wheeled with a bounding round down the hill, throwing Miss A. backward upon the hard ground far below the road. She immediately went home, where the fractured part was dressed. She is now getting along as well as could be expected. Miss A. sustained no other injuries from the fall than above mentioned.

Appropos of the current silver discussion, here are some interesting facts pertaining to the early coinage of 1804, about \$11,000 was the produce of virgin gold from Cabarras county, N. C., and, from that time to 1827 all the gold in this country was obtained from that state, amounting to \$110,000. The gold mines in Rowan county were, at one time, "the richest in the Atlantic States," and yielded about \$200,000 annually. A bar of silver from one of the mines in Davidson county, N. C., is said to have been the first melted from the ores in the United States. The copious yield of gold by the mines of the southern states induced Congress, in 1838, to establish three mints, one at Charlotte, N. C. one at Dahlonega, Ga., and one at New Orleans, the first two to be for coin only. The dies for the first coinage of money in this country were made by a Massachusetts mechanic, in 1832, and the money was coined by John Hull, on whose estate, the Mint House stood, and Robert Sanderson of Boston.

Poultry for Farmers.

It has generally been believed by farmers, and the belief is still prevalent, that it is ridiculous to try to make poultry pay such enormous profits as are claimed for them. They laugh at the idea of 200 per cent. profit, yet even more than that can be obtained by poultry breeding. It would, no doubt, be preposterous to say so unless proof endorsed the statement; but facts substantiate it, and some of the largest and best breeders of this country show, year after year, that these present results can be obtained. What would some of our farmers say if they were told that poultry pay as much as 500 per cent.? The French have reached to a greater knowledge of successful poultry raising than any other nation, and they claim this immense profit, and there is not the slightest doubt but their large profit is no exaggerated statement, but a reality.

In this country it is known that poultry can be made to pay at least 200 per cent., and we dare say that even larger results may be obtained. Now, farmers, what do you say to this? Is there not some inducement to pay greater attention to this hitherto comparatively neglected branch of rural industry? We are confident you can realize more profit from poultry raising, provided you get to know properly, than from anything else on your farm. Be wise, and begin this winter by getting rid of your mongrels, and commence with some really good birds.—American Farmers' Gazette.

A Sudden Repentance.

Yesterday forenoon a farmer entered a restaurant on Griswold street, hat on the back of his head and a joyful look in his eyes, and flinging his hat on the floor he exclaimed: "Whom I sold my soul, and now I want a Thanksgiving dinner!"

He was invited to sit down to a table, handed a bill of fare, and asked to name his dishes.

"I want chicken, turkey, oysters, fish, quail, snipe, pie, cake, soup, and I want a Thanksgiving dinner!"

"I want chicken, turkey, oysters, fish, quail, snipe, pie, cake, soup, and I want a Thanksgiving dinner!"

CENTAUR LINIMENTS.

Letter from a Postmaster.

"ANTIOCH, ILL., Dec. 1, 1874.

"Messrs. J. B. Rose & Co.,

"My wife has, for a long time, been a terrible sufferer from Rheumatism. She has tried many physicians and many remedies. The only thing which has given her relief is Centaur Liniment. I am rejoiced to say this has cured her. I am doing what I can to extend its sale.

W. H. RING.

This is a sample of many thousand testimonials received, of wonderful cures effected by the Centaur Liniment. The ingredients of this article are published under each bottle. It contains: With Haze, Mentha, Arnica, Rock Oil, Carbolic, and ingredients hitherto little known. It is an indisputable fact that the Centaur Liniment is performing more cures of Swelling, Stiff Joints, Eruptions, Rheumatism, Neuralgia, Sciatica, Caked Breasts, Lock-jaw, etc., than all other Liniments, Embrocations, Extracts, Salves, Ointments and Plasters now in use.

For Toothache, Earache, Weak Back, Itch and Scalds, Burns, Scalds, etc., it is a sure cure. It cures burns and scalds without a scar. Extracts poison from bites and stings, and heals frost-bites and chilblains in a short time. No family can afford to be without the Centaur Liniment.

The Centaur Liniment, Yellow Wrapper, is adapted to the tough skin, muscles and flesh of the animal creation. Its effects upon severe cases of Spavin, Swelling, Stiff Joints, etc., are wonderful. It is a little less than the Centaur Liniment.

Messrs. J. B. Rose & Co., Druggists, cor. Elm and Front Sts., Cincinnati, O., say:

"In our neighborhood a number of teamsters are using the Centaur Liniment. They pronounce it superior to anything they have ever used. We sell as high as we can, and it is a great relief to them."

We have thousands of similar testimonials.

For Wounds, Galls, Scalds, Ring-bone, etc., and for Sore Worn in Sheep it has no rival. Farmers, Livestock-men, and Stock-raisers, have in this Liniment a remedy which is worth a hundred times its cost.
