THE WEEKLY SUN.

NEW YORK. Eighteen hundred and seventy-six is the Centennial year. It is also the year in which an Opposition House of Represen-tatives, the first since the war, will be in power at Washington; and the year of the twenty-third election of a President of the United States. All of these events are sure to be of great interest and importance, especially the two latter; and all of them and everything connected with them, will

be fully and freshly reported and expounded in The Sun.

The Opposition House of Representa-

Of all this THE SUN will contain complete and accurate accounts, furnishing its readers with early and trustworthy information upon these absorbing tordes. The twenty-third Presidential election, with the preparations for it, will be memorable as deciding upon Grant's aspirations for a third term of power and plunder, and still more as deciding who shall be the candidate of the party of Reform, and as electing that candidate. Concerning all these subjects, those who read The Sun will have the constant means of being thoroughly well informed.
