The Enterprise.

OREGON CITY, THURSDAY, MARCH 29, 1877.

Future American Politics.

since their drubbing in the civil conflict "the war is over," is at last listened to with some degree of credulity. The political aspect of the country now appears more favorable than at any time since the war. For the first time since Fort Sumpter was fired upon there are signs of a fraternal feeling between the North and the South which cannot be smothered by the machinations of rackloss politicians. This feeling shows itself in the advances made by the Administration toward a real political fellowship with the South and the manner in which that advance has been met. The nomination of ex-Senator Key to a place in President Hayes' Cabinet is a crossing of sectional and political lines which cannot be mistaken. Mr. Haves would not have invited Mr. Key to his family conneil if he did not intend to pursue a course toward the South which a man of Mr. Key's antecedents could approve. We do not mean by this that Mr. Key will dictate Mr. Hayes' Southern policy, but between the two a policy will be shaped that a Northern Republican and a Southern Democrat can work together in carrying out. The Southern Democrats who look with disfavor upon Mr. Key's acceptance of a place in President Hayes' Cabinet, are looking rather to the partisan than to the national result of the act. The South claims equality with the North in the councils of the nation; and the nomination of Mr. Key is a step in this direction, which will doubtless be followed by others if this is received in a proper spirit. The South claims to be loyal to the Union if the Union will be just to her; and the nomination of Mr. Kev is a guarantee that no injustice is intended. The South claims to want sectional lines obliterated, and the President in seeking Mr. Key has disregarded them.

It is not probable, therefore, that the South will maintain an attitude of recome through the channels it was expected to take. It does not follow that the Democratic party will go to pieces in the South; but if the policy of Presiold Whig and Democratic parties maintained toward each other. There will be parties and political contests; but both will be socially respectable and politically patriotic. The whites will attach themselves to either party, as in the North, and neither association will be regarded as a personal reproach. When the whites deride, the blacks will. and the color line will disappear. In a word, the Administration has attempted the herculean task of naturalizing a party born and matured on sectional

It is not for a moment to be supposed that this work will go on unopposed. There are men now in public life, who have risen to eminence as sectional dictators. They have fought, in a political sense, so long at the South, that they South is a public enemy. When these men see a Republican Administration a purpose to fight, they assume that it cannot quite comprehend the grand idea of our American Republic, in which literally there shall be no North nor South. they wish to retain their present influence, they must move with the times. The representatives of the South have shown, this past winter, that the dis-

Our own Senators, Kelly and Mitchell, have been ornaments to our State.

Because, as politicians run now-adays, false charges against opponents against Senator Mitchell.?

Keep Up Your Town.

We cannot understand the lethargy of our people concerning their own ence of the Cigar Island and its reas indifferent as if it were of no more Martinez Campos, commander of the respondent writes: The cry kept up by Democrats ever importance than a passing cloud. In Spanish troops in Cuba, with much the East such a natural advantage bluster reports to the Crown at Madrid would be eagerly sought after, and busy that he" has completely surrounded mills would line the river bank from the Imperial Mills to the "Dry House." We warn our capitalists in time that pieces. There are two sides to every their unconcern is snicidal, and even now citizens of this place are preparing no exception. This wonderful Captainto leave for more enterprising towns. The bridge so much needed, and the Court House of such necessity, are not even considered worthy of thought by our taxpayers, and the result is that our town, once holding to its heart the brightest prospects in Oregon, is on the down grade, and it is for our Rip Van Winkle capitalists to "put on the brakes." It is better to leave the town than oppose every scheme of improvement. Men who are all the time waiting for a chance to get out of business | Captain-General can redeem his promor out of town will never build up ise, if he continues to make it contineither. One of two things should be done; Push things; find a way or make a way to put some "go" into business. run the town for all there is in it, get up steam and keep it up, or else leave the whole thing untouched. Half-way on through year after year of almost I haven't a long time to live. Rumsellmeasures will not do. Do you want trade? Bid for it. Do you want business to come to this town? Eucourage those who do come. Do you want to have a prosperous town, where people ing with a lavish hand millions borrowcan come disposed to make it their ed from European capitalists, extorted home? Then bury from sight all local from the already depleted coffers of the differences, and do not run up the price of your real estate the moment a toil-hardened hands of Cuban laborers. buyer is seen in the horizon; work no together for a common prosperity and for a mutual benefit. Wake up, wipe your eyes, roll up your sleeves and go to ish grasp, until now the ground they work. Don't go to work with fear and trembling, but take it for granted that the only parts of Cuba that the Span- Sunday, said that he considered the work will tell. The flood has caused trouble all along the line of the telegraph, which was promptly brought into requisition, and neighboring towns warned of the mighty rush of waters that was causing great destruction of property and threatening the loss of life

HARTFORD, March 27 .- The flood dis-

aster at Staffordville is not so destructive as at first reported. A later estimate onts the actual present loss at less than 850,000. A leak was discovered on Monday. Men were busy all day filling in about the waste pipe, but their efforts were useless. A: 5:30 o'clock this morning the work was abandoned. The water | has been shut down all winter, has rethen gained so rapidly that in a few sumed operations. minutes the dam opened. Ed. Penney, of the Gienville Manufacturing Co., mounted a horse at the head of the flood to warn the inhabitants in the vallev. The water, which grew greater by the absorption of successive ponds, as at the rate of five miles an hour, and though from the time of Penney's warning up to the arrival of the water, people were busy moving their property, but little was rescued. Amidond's machine shop, several tenements and the honse of Parley Howe and the dams of the Phoenix Co., and Howe & Valley

Co., were destroyed.

The accident is a terrible blow upon the valley. About 1,000 hands are thrown out of work, Industries are sadly crippled. The loss as far as Stafford Springs is estimated at from half a million to a million dollars. Much of this is in small sums. The damage below Stafford Springs is not easy to get. It consists of injury to bridges and states that the track is all gone from the Stafford passenger depot half a mile "In Rockwell county, Texas, when South, and with the track went the mined. South of that another piece of track is washed and another bridge is Gen. Jubal Early, the ex-Confederate, endangered. The water is now up to
