Henry Meldrum returned last week with his surveying party from Grant county. He heard nothing of the Indian grouble until his arrival at Camp Harney, on his way home. Hen y will take the field again in the Palouse country as soon as the Indian disturbance quiets down.

The interior of the Congregational church has been repainted, seats varnished and furnished with new cushions, and it has given it a decidedly neat appearance. The painting was done by Mr. M. Fitzgibbons, and it has been done in a manner reflecting much credit on that gentleman as a master hand with the brush.

At the Basin.

The basin presents a busy scene of activity. About eighty hands are employed, composed of carpenters, blasters, common daborers and boys. The dam was placed across the basin at the saw mill last Monday, and the basin below this point is almost dry. About two feet of mud has accumulated on the east and north sides, all of which will be removed. A large force of men are engaged in clearing away a track through this vast mud bed for temporary flume to connect the factory flume with the water above the dam, is expected that the connection will made this eyening or to-morrow, so that the factory can resume work. Broughton's mail is turning out about 10,000 feet of iumber per day, to be used on the basin and dry-dock. Timbers are aiready being placed in position for the new basin and dry-dock, and the work is being pushed to completion as fast as possible. It will take a out two months from the time of commencing to complete this extensive

PIC-NIC AT MT. PLEASANT.-The pic-nic at Mt. Pleasant last Saturday, under the Senool of that place, was the scene of mu h pleasure and was admirably carried out. At II o'clock the Harvester and Clackamas clubs opened out on the diamond field, and after a lengthy contest the Clackamas club were awarded the laurels. The next in order was refreshments, and our boys say that they never before enjoyed such good eating, and we must say that the ladies of Mt. Pleasant are the best providers in this

The farmers of this vicinity complain of the manner in which they are treated by the dealers in agricultural implement at Portland. Last week Mr. James Winston bought a hay rake of on of the principal dealers, and after bringing it home found that he had two shafts for the same side, and he was obliged to go to Portland to have it changed. Even then his troubles were not at an end, for the shaft would not work and he was obliged to go to the blacksmith and have it fixed. Three days time lost by the cussedness of these dealers is what makes our farmers swear. Several of our young men seem determined to get Wiser, and we shall not be

surprised at any time to see their names in our excellent county paper, under the head of "Gone and done it," which means, in the language of "We'uns," having the knot tied. Look out for large chunks of The young folks of this community as

Mt. Pleasant,

July 10th, 1877. MR. EDITOR:-Some time has elapsed since I have written to you, and I hope

you will not feel that I am claiming too much of your time for our neighborhood. For the past few weeks all of the farmers seem to have been very busy, preparatory to the coming harvest, your correspondent being one of that number. The only recreation being base ball, the Harvester B. B. C. played the Clackamas club on last Saturday, and were, we regret to say, beaten more than two to one; the

score standing Clackamas 68, Harverter 32. After the game was over several of us elderly gentlemen tried to get the Harvesters to play us a game, but they declined on the plea that they would beat us too bad. The only excuse our boys have for their defeat is, the fameness of their pitcher, Mr. Carter, whom they claim as their best player, and bad playing on the part of all. The game passed off very pleasantly, although once or twice we saw a frown ruffle the usually smooth and placid brows of several of the players. The boys claim that if they can't beat the Clackamas club plaving ball, they got away with them at the table. The only thing lacking. Mr. Editor, was your smil-ing phiz. Well, boys, better luck next

Crops usually look well, although those who sowed white winter wheat in March declare that it is a fraud. Capt. Apperson, who purchased a tract of land containing 16 acres, expects to commence grubbing it this week, and by fall expects to have it in wheat. This piece of land is from the donation claim

of Capt. A. F. Hedges. Mrs. Withinton, of Portland, is rusticating at the residence of W. B. Partlow. Once more we notice the familiar countenance of James Swafford in our midst Will H. has returned from Wallula. Those who went east of the mountains declare that it is not safe to hitch horses, for fear of broken necks. FARMER.

FISH COMMISSIONER. - Prof. Livingstone Stone, U.S. Fish Commissioner, who was invited to this coast by the Columbia river tiskermen, has been in this vicinity for several days past. He has examined the streams flowing into the Columbia, and has arrived at the conclusion that the Clackamas river is a great deal better adapted to breeding purposes than any of them. The projectors of this scheme have objected to this location, alleging that only 'steel heads' ascend the Clackamas. Prof. Stone has caught several fine salmon out of this stream and sent them to the interested parties, which will prove that we can eatch as the fish here as they do even on the Columbia. The commissioner is highly pleased with our beautiful stream praising its natural advantages for fisl propagation in the most giowing terms, and he will endeavor to persuade the fishermen to have the breeding cages located

in the Clackamas. Since the above has been placed in type, we are informed that Prof. Stone has received a telegram from the president of the Columbia River Fishermen's Association authorizing him to locate the fish breeding cages on the Clackamas if he thinks it is the most favorable situation. We understand that operations will be commenced next week.

K. of P., were duly installed by special a severe attack of Diptheria which left my limbs paratyzed and useless, so I was unable to walk or even sit up. Noticing the advertisement of PERUVIAN SYRUP, I concluded to give it a trial, and to my great joy soon found my health im roving. I continued the use of the SYRUP until three bottles had been used, and was restored to complete health, and have remained so to this day. I attribute my present state of health to the use of PERU-VIAN SYRUP, and hold it in high estimation. I cannot speak too highly in its praise. I have in several cases recommended it in cases similar to my own with the same good results. Yours truly, Chas. E. PEARCY.
