The Enterprise.

OREGON CITY, THURSDAY, AUG. 23, 1877

Let There be Harmony.

The Democracy of Oregon are actively preparing for the next campaign, and present a solid front against the Republicans. They have but slight hope of success if the Republican party is united and goes into the contest with good Republican exchanges, instead of tryhancing the prospects of the Democracy. Oregon is Republican on a fair and united vote, but we may give the State again to the Democrats if we do not act interference and remained silent. together.

There is no reason for any Republitaken which will lead to success. All personal differences must be disregarded and set aside; the convention must be free from manipulations and cliques, and represent the honest sentiment of the Republicans. A ticket thus placed in the field should be the will of the party and receive its hearty and undivided support. Personalities have no personal grievances, and that seems to can success next June. There is no need of the party standing sponser for this or that faction, but let all discordant elements be set aside and the good of the State and party alone considered.

We know that there is no good reason why Oregon should not go largely Republican. But if the papers which should be working for harmony in the party will persist in their course to create hard feelings, and forcing their personal grievane s into the convention, interest. Mr. Blaine has taken no we may expect a recurrence of former pains to conceal the fact that he is anydefeats. Let the Republican papers go thing but pleased at the course of the to work for one object, not to punish administration in regard to the South. personal enemies within the party, but for the success of Republican principles. Let the people put forth the leaders, and then let the press come up actively to their support. In this way success is insured. Discord and personal bickerings will defeat the party. Now is the time to settle personal griev- His dissatisfaction presumably arises ances, and let us close up the ranks for out of the withdrawel of Federal baya strong fight next year. Let the party honor those it sees fit. The choice of an editor is only, as a general thing, his own, which should go no further than the wish of any other member of the party. The press has no right to be used as a weapon to fight personal battles, and we call upon the Republicans of Oregon to cease their warfare upon each other. If we want to win the fight next June, we must do so by a Maine. Mr. Blaine was forced to take combined war on the opponents of our party. Division, discord and personal revenge will defeat us, while a pledge to submit to the action of the people will crown us with a glorious victory. Of course there will be a contest for the U. S. Senator. This we expect. Let the Republicans in each county put The Camerons of Pennsylvania are forth good honest and reliable men for the Legislature. Let them make the choice after they are elected. There is no good reason why they should be packed down with a pledge for or against any man. Let them be elected, and when they meet in the Legislature, clared himself. The fact that he has make a selection from the many able men in the party for the position. We are not the instrument for any man. We desire to see Republican success, and we know this cannot be obtained unless we act together and in harmony. Let our party friends look seriously at this matter and ask themselves if the time has not come when we should discard personalities and go to work with a determination to defeat our common

A Good Policy.

In years past the shippers and speculators did not dare to enter the market wheat is only estimated at 150,000 tons, to purchase the products of the State which will probably be 200,000), will on account of the unsettled rates of bring into the State \$9,000,000. This transportation. The various transpor- amount of export is the product of a tation lines through the Willamette population of not to exceed 75,000 Valley this year adopted a new plan persons, men, women and children. which seems to meet the approval of We believe there is no State in the shippers. They advertised to enter into Union that can boast of an equal an agreement to charge so much for amount to the same population. Our freight for the year, thus enabling every products are rapidly increasing, and shipper to make his calculation when Oregon is at no distant day destined to he enters the market. This is a good be the wealthiest State, not only of the idea, and the speculator is not called great North-west, but of the entire nation. upon to deduct a certain allowance for a prospective rise in freight, which takes away one of the greatest obstacles heretofore to contend against. Before, our freight tariffs have been so unreliable that speculators and shippers have always been compelled to calculate on a have deducted this margin from the export from Oregon to Austrailia and parchase price. While this benefits the Great Britain. Its quality has been of wheat. Will the total requirements of Great Britain, France, Belgium, Holland, Switzerland, Italy and Germany purchase price. While this benefits the shipper, it is equally beneficial to the shipper. producer, as it will give him the full value of his products.

The Pittsburg (Pa.) Commercial says, pathetically, that to put the entire loss of the recent riots there upon Alleghany county would bankrupt it, and would also be inequitable, as the causes which produced the trouble were general and widespread rather than local. The Commercial's notion is that, as the State authorities managed the affair, the State should pay

The Sentinel says the tide of immigration is steadily pouring into Union Co., from all the Western States.

The Result in Maine.

In the Republican State Convention of Iowa no declaration was made for or against what is known as the President's Southern policy. The efforts which we learn that this year's wool crop the President was making to give effect to the platform upon which he was elected as respects reform in the civil they are settling their little troubles to service, remarks an exchange, were likewise passed by in silence. But the Iowa State Convention met at a time when the political mind was in ferment in consequence of having been conmen and a bold expression of its princi- fronted with its own frequently reiterples. But we fear that some of our ated propositions on the subject of reform. The order of the President ing to heal the differences existing, are directing all officials belonging to the widening the breach, and thereby en- Federal Government to retire from committees and conventions, had just There is every reason to believe that been promulgated. Iowa, which may regarded as a State in which the Postmaster is a ruling power, resented the

The next Republican State Convention that was held was that of Ohiocan to create discord within the party. the State from which the President There is but one honest conrse to be hails. If an indorsement of his policy and the general course of his adminisration could have been prevented there, his opponents would have schieved a substantial victory. There was a leader of some prominence also ready to hand, in the person of B. F. Wade, who, with great vehemence and profanity, had been denouncing the President's policy. though he has not yet taken the business in the contest. The party is trouble to define clearly what it is. But not a place for the settlement of purely | the Ohio Convention, without any hesitation or serious internal conflict, apbe creating the only danger to Republi- proved in the most direct language all that the President had done for the purpose of restoring peace to the country and introducing business principles into the management of the general affairs of the nation. It was impossible that the platform on these subjects could have been more clearly cut, more

> positive or more emphatic. In this condition of things the Republican State Convention of Maine was invested with more than ordinary had been done by the President in that silent on that branch of the subject. onets as props to State governments. In company with Chamberlain, late Governor of South Carolina, he ventilated the subject very thoroughly at the gathering at Woodstock on the last | nice place to live. Mrs. W. A. Lewis. Fourth of July contrived by Bowen of the Independent. But for all that he has not been able to carry his State with him. The Administration was neither endorsed nor repudiated in the floor to advocate the policy of non-

It may be safely assumed that if this State could not be forced to take up a position of hostility to the Administration there will be little chance of committing any other to that line of action. somewhat disaffected. They are politicians of a type who would not be likely to be ardent supporters of an administration which is endeavoring to purify the official atmosphere. But they will hardly venture upon open war, for prudential reasons. Conkling has not deremained silent is proof that he is not wholly satisfied. He is like Blaine in one particular-he has never espoused the cause of civil service reform with enough to force New York into opposition to the Administration. If Blaine could not handle Maine as he wished, Conkling can do little with New York. where there are so many other Republican leaders ready to take advantage of any mistake which he may commit.

Oregon's Exports.

It is estimated by good authority that the three principal articles of Oregon's exports, wheat, salmon and wool, (and

Oregon's Wool Interests.

From the report of the Secretary and President of the Board of Trade of Portland, which has just been published, for which Eastern and Western Oregon largest producers of wool in the world, and owe their greatness as British colpeting even in the United States marbeen fortunate in securing, this year, a number of Australian wool growers to our eastern ranges-men of capital and experience, who have been attracted to onr State, they say, in the belief that Oregon will eventually become a great has been successfully carried on by large sheep raisers in Eastern Oregon, who find it very profitable because they can move their wool much cheaper than wheat. This staple commodity will eventually form one of our chief exports, and we should have the factories here to consume the bulk of it, and thus realize to our State the advantage to be derived in reducing raw material to the smallest possible compass for shipment. Wool is already one of Oregon's most

Visiting Coos Bay.

MR. EDITOR:-We had a very pleasant and pleasing trip from Oregon City to Roseburg, which is a nice little town located among a thousand hills. We spent one week in climbing those beautiful hills and catching the mountain by stage. We found the roads very rough, yet there were many grand and alarm felt at headquarters for the safety beautiful sceneries, and our little party of Gen. Sherman, who is supposed to enjoyed it hugely. We went on the be in the Yellowstone Park. He has He was never very conspicuous as a re- steamer Myrtle from Coos City to Marshformer of the civil service or anything field and Empire City. Empire is the else. It could not be expected that he county seat of Coos county, located on fully if the two companies should hapshould feel very much elated at what the south side of the Bay. I shall ever pen to come together. The military remember the county clerk, Mr. Jackson, behalf. But he has prudently kept for showing us to the court room, from which place we could see out upon the old ocean, and see the beautiful ships as they passed. Oh, I could love the man who wrote "A Life on the Ocean Wave." We got some shells from the beach, saw the wild deer of the mountains, and had a very pleasant trip. Upon the whole, I think Coos Bay a

The Wheat Supply.

The barvesting of the Hungarian wheat crop was commenced the first week in July and the cereal was badly rusted together with small stocks and limited supply, caused an advance.

Austrailia has much less surplus wheat than in 1875 crop, but her new crop will be harvested in December or January next, but it promises a small surplus

The prevailing and threatening famine wheat from that country.

bushels of wheat, mainly from Russia; but as the Danubian and Black Sea ports will be closed, she will be compelled to look elsewhere for her supplies. Some of the Russian product

may come out via the Baltic ports. It is now estimated that California will have no more than 150,000 tons crop just harvested against 600,000 tons from the crop of 1876. The crop of wheat in the United

Kingdom promises to be under an average. Great Britian has usually i ed from Russia about 20,000,000 to 22,-000,000 bushels of wheat and other countries of northwestern Europe rather more than 25,000,000 bushels, as the years have been about 49,000,000 bushels. The supply of wheat in the United Kingdom for the eight weeks ending July 14, 1877, shows a deficiency under consumption 60,777 qrs., and the supply was 185,647 grs. more than for the same time in 1876.

The average weekly consumption of corn, in the United Kingdom, in 1876,

was 1,390,730 bushels. In the south of France the wheat crop will be deficient in quantity. Samples marketed were without color and shriveled with the heat. The grain was also light and lean in flour product. Holland and Belgium usually import from ten to twelve million bushels of wheat, and the United Kingdom has for the last five years imported of foreign

1,000,000 Bottles

ENTAUR

INIMENTS.

have been sold the last year, and not one complaint has reached us that they have not done all that is claimed for them. Indeed, scientific skill cannot go beyond the result reached in these wonderful preparations. Added to Carbolic, Arnica, Mentha, Seneca-Oil and Witch-Hazel, are other ingredients, which makes a family liniment that defies rivalry. Rheumatic and bed-ridden cripples have by it been enabled to throw away their crutches, and many who for years been afflicted with Neuralgia, Sciatica, Caked Breast, Weak Backs, &c., have found permanent relief.

Mr. Josiah Westlake, of Marysville, Ohio "For years my rhenmatism has been so bad that I have been unable to stir from the house. I have tried every remedy I could hear of. Finally I learned of the Centaur Liniment. The first three bottles enabled me to walk without my crutches. I am mending rapidly. I think your Liniment simply a marvel." This Liniment cures Burns and Scalds with-out a scar, extracts the poison from bites and stings. Cures Chillblains and Frosted-feet, and is very efficacious for Ear-ache, Toothache, Itch and cutaneous eruptions.

The Centaur Liniment, Yellow Wrapper, is intended for the tough fibres, cords and muscles of horses, mules and animal READ! READ!

Rev. Geo. W. Ferris, Manorkill, Schoharle county, N. Y., says:
"My horse was lame for a year with a fet-lock wrench. All remedies utterly failed to cure, and I considered him worthless, until l commenced to use Centaur Liniment, which rapidly cured him. I heartily recommend it."
It makes very little difference whether the case be "wrench," sprain, spavin or lameness of any kind, the effects are the same. The great power of the Liniment is, however, shown in Poli-evil, Big-head, sweeny, Spavin, Ring-bone, Galls and Scratches. This Liniment is worth millions of dollars yearly to the stockgrowers, Livery-men, Farmers, and those hav-ing valuable animals to care for. We warrant its effects and refer to any Farrier who has

A complete substitute for Castor Off, without its unpleasant taste or recoil in the throat. The result of 20 years' practice by Dr. Samuel Pitchers' Castoria is particularly recommen ded for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup, and for children Teething. For Colds, Feverishness, Disorders of the Boweffective. It is as pleasant to take as honey,

costs but 35 cts., and can be had of any druggist This is one of many testimonials: "Cornwall, Lebanon Co., Pa., March 17. "Cornwall, Lebanon Co., Pa., March 17.

Dear Sir:—I have used your Castoria in my practice for some time. I take great pleasure in r commending it to the profession, as a safe, reliable and agreeable medicine. It is particularly adapted to children where the repugnant taste of Castor Oil renders it so difficult to administer.

E. A. ENDERS, M. D."

Mothers who try Castoria will find they can slean nights and their habies will be healthy sleep nights, and their babies will be healthy.

CANCER CAN BE CURED. Cancer has from time immemorial been a great scourge to the human race, and is now becoming the greater. For many years it has been held by the medical profession, and generally believed by the people, that Cancer is incurable; that once its roots take hold upon a victim, there is no chance for a sufferer to escape a lingering and terrible death; a death surrounded by all that is disgusting and horrible, not only to the sufferer, but to his friends. Happily this fell destroyer need no longer be feared. Dr. H. T. Bend, of Philadelphia a well known physician of least of the surface of least of the surface of least of the surface of least of least of the surface of least of delphia, a well known physician, of large ex-perience, has for four years devoted himself to the special study and treatment of Cancer, and the result of his experience is his discovery for the radical cure of Cancer, without the use of either knife, caustic or plasters,

and without pain

The majority of persons are greatly deceived in regard to the first symptoms and appearance of this most dreaded disease, considering it painful from the commencement. This is a sad mistake, carrying thousands to an untimely grave. In most cases there is little or no pain until the disease is far advanced. The only symptoms for many months, and even for years, are occasionally a stinging, darting, stabbing, shooting, smarting, itching him in the stability of the stable of the stabl ing, burning, crawling or creeping sensation, and some cases not any or these. If a malady is growing worse instead of malady is growing worse instead of better, it is conclusive evidence it is of a malignant character, and demands immediate attention. If you have a branny scaly, warty appearance, with an occasional breakwarry appearance, with an occasional breaking out of these upon the face, lip or nose, or
any other portion of the skin, attended with
any of the above symptoms, or a sensation of
a fly being on it, or a hair tickling it, is certain evidence it is Cancer, and there should
be no delay in using Dr. Bond's treatment,
Life is too valuable to be tampered with.
Dr. Bond's treatment consists of an "Antidote" that is applied locally: this at once arrests the growth of the Cancer, and by chemical action neutralizes its malignity, rendering it harmless and changing it to a simple
sore, which nature, assisted by constitutional
remedies, soon heals (when the skin is unbroken, and the Cancer is a hard tumor, the
Antidote does not make an open sore, but removes it by absorption). In connection with
the Antidote is used the Specific, taken internally. This tones up the general health,
strengthens the patient, purifies the blood
and eliminates the poison from the system.
Dr. Bond's Antidote contains neither caustic
nor poison, and can be applied to the most
addicate tissues of the body without injury Dr. Bond's Antidote contains helther caustic nor poison, and can be applied to the most delicate tissues of the body without injury and therefore is the only remedy that can be used in internal Cancer, such as cancer of the stomach, cancer of the womb, etc. Dr. Bond'

remedies, with full directions for successfut treatment will be sent to any part of th Pamphlets and full particulars free.
Address, DR. H. T. BOND,
859 North Broad St., Philadelphia, Pa
