The World-renowned Wilson Shattle Sewing Machine Has Unlimited Capacity to do all kinds of Family Sewing and Manufacturing.

ITS PATENT AUTOMATIC "CUT OFF" on the hand wheel prevents the machine from running backwards, and obviates the necessity of taking the work from the machine to wind thread on the bobbins, which must be done with all other Sewing Machines, to the great annoyance of the operator, especially in tucking, hemming and rufiling. It does one-third more work in a given length of time than any other Sewing machine.

WITH EVERY MOTION of the FOOT the MACHINE MAKES SIX STITCHES.

Three Wilson Machines will do as much work in one day as four other Machines. It requires no special instructions to use it; an Illustrated Direction Book is furnished with each machine.

IT CANNOT GET OUT OF ORDER, AND THE ADJUSTMENTS ARE ABSOLUTELY PERFECT. A properly executed Certificate is furnished with cach machine, guaranteeing to keep it in repair, free of charge, for five years. Machines sold on easy

terms of payment, and delivered, free of charge, at any Railroad Depot in the United States where we have no Agents.
