The Primaries.

On Saturday, the 30th inst., the Republicans of this county will hold their primary elections, and it is to be hoped that our people will not on that occasion be overcome with any lethargic apathy nancial policy, which does not embarthat will prevent their taking an active part. It is at these first elections that the Republican ticket is in fact made, and representative men put upon the ticket must not stay away from the ed by our best citizens at the primaries occasionally results disastrously - for the jobbers and wire-workers "set up" tickets pledged to vote for their own kind. What we want is the honest sensend into the field as leaders none but | bark in business. good men. This county is undeniably Republican by at least two hundred majority, and we can only lose it by insanity at the primaries. There must be no dead weight to a ticket in the person of some man whom the entire party can not unanimously support, for he will but drag down the others. It is much easier for one bad name to weaken a whole ticket than for good men to pull through an unpopular man, just as one decayed apple will rot a whole box of good ones before they can make the bad one at all toothsome. The coming election threatens to be very closely contested, and it is here at the threshold that we must begin to prepare for it. A good ticket and success is certain, while neglect on the part of our representative men to see that primaries are conducted with a view to nominating only good men for office is as sure defeat. Be sure to vote, study the names on your ticket, and show that you take a remote dependency tenanted by an some interest in good government and the success of your party.
