

THE ENTERPRISE.

THURSDAY, DEC. 1, 1887.

Subscribers failing to receive any number of the Enterprise will please report the same at our office.

The Markets.

The trade has kept up very well for the past week, considering the inclemency of the weather. No marked changes are noted since our last report except in the demand for butter. A first class article is in active demand at a remunerative price while inferior goods are not wanted—being worth only little more than good lord. Eggs are bringing an excellent price, being worth 35 cents.

Nature.

Is hereby given that I have lost a Clackamas County Warrant, No. 1291, drawn in favor of Jacob Wills, for \$41.33, Indors'd May 4, 1887. This finder will please return to Jacob Wills and be suitably rewarded, payment on the same having been stopped. JACOB WILLS, Nov. 28, 1887. Willsburg.

LOST.—A half-moon scarf pin containing nine pearls and a star in the half-moon, also a pearl in the center of the star. Finder will be rewarded by leaving at this office.

REMOVED.—The Enterprise office will be found across the hall at the old stand after this. The necessity of having old Sol's column reflections to assist in the composition of weighty articles made the transition desirable. We wanted more light and got it. Come and see us.

BAYARD REPAIR.—Hogan, the wheel swindler, has begun suit against the complaining witness for defamation of character. As he had but little to start with there would seem to be none left to damage.

FALSE ALARM.—The fire boys had a chance to run with their carts last week Wednesday. About eight o'clock in the evening the fire bells began to peal and a rush was made for the lower part of town, where Howard & Warren's furniture factory was found to be indulging in a burning chimney.

JAD CASE.—Yesterday morning a man dressed in soldier's clothes fell in an epileptic fit, in front of Isaac Part's. He gave the name of Cole and claimed to be in need of assistance.

BAD FALL.—The other evening at W. K. Wills' was coming down the steps when he slipped. An old break of his leg caused the hip joint to slip at times. This happened as he slipped and he fell, rolling down about 20 steps, then falling off on the rocks. Fortunately, aside from a severe shaking up he was not seriously hurt.

CLOSING.—The term of writing school conducted by Prof. Feaster has closed, and the professor has gone to Coos Bay to secure a class. As an instructor in this practical art, Prof. Feaster has few equals.

RESCUED.—J. G. Pilkbury and family returned from their protracted visit at his old home in Maine, last Monday, somewhat tired but well pleased with their visit.

WILL BROWN.—The managers of the cement works were in town Tuesday completing their arrangements for the erection of the mill. The plan shows a four story elevation 50x50 with stone foundation and additional room one story high. Mr. Middleton the manager, was looking for a house to live in, as it is their intention to begin actual building operations and push the work forward as rapidly as possible and he wishes to be on the ground to superintend the work of construction.

FOOT CASE.—A few miles from town is an artificial carp pond, in which were placed two years ago about 23 young carp, less than two inches long. We were invited to take a look at them the other day, and saw nine fine mottled-sided fish about 11 inches long that would easily weigh two pounds. They were quite tame and could be plainly seen. They will soon lay in the mud for the winter.
