Fatal Neglect.

The breaking of the smallest wheel in a mammoth factory, if not repaired or replaced, will ruin the entire plant, as a speck of dust will derange the delicate machinery of the watch. Were people as thoughtful to repair their broken health on the first approach of disease, as the owner is to mend his machinery, they would escape indescribably suffering, and often death. Slight causes will sometimes derange the digestive organs, on whose healthy action the health of the whole system so much depends, and feverish blood, headaches and consumption itself, set in. The wise person, will at once arrest the cause of these unhealthy symptoms, resorting to that world-famed remedy, Dr. Pierce's Golden Medical Discovery, which purifies the blood and cures liver disease. Of all druggists.

The Worst Nasal Catarrh.

No matter how long standing, is absolutely cured by Dr. Sage's Catarrh Remedy. It does not merely give relief, but procures permanent cures in the worst cases. 50 cents, by druggists.

Mothers!

Castoria is recommended by physicians for children's teething. It is a purely vegetable preparation, its ingredients are published on each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhea and wind colic; allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 25 doses, 25 cents.

The immense sale of Chamberlain's Cough Remedy has been produced to a great extent, by people, who have been cured by it telling their friends and neighbors of its good qualities, and urging them to try it. The most severe cold will soon yield to its soothing effects. For sale by E. G. Canfield & Co.

An article entitled "Hill-hunting in the Rocky Mountains" in Harper's Magazine for November, will send a thrill of pleasure down the back of the hunting readers of that periodical. G. O. Shields is the author, and he writes with all the enthusiasm of a successful old hunter. The article, with its incidents and beautiful illustration, is a fit companion piece to the article on "The Woodland Caribou," which filled several interesting pages in a recent number of this magazine. It is with deep feelings of regret that the reader learns of the rapidly approaching extermination of these majestic creatures of the forest.

E. G. Canfield & Co., the druggists, desire to inform their patrons that they are agents for Chamberlain's Cough Remedy, the best and most reliable medicine in use for colds, coughs, and croup. No one suffering from a throat or lung trouble can use it without benefit. It will cure a severe cold in less time than any other medicine or treatment; it is the only known remedy that will prevent croup.

Many persons contract severe colds during the early winter month and permit them to hang on persistently all winter; weakening the lungs and paving the way for catarrh, chronic bronchitis, or consumption. No one can afford to neglect a cold. A single bottle of Chamberlain's Cough Remedy will cure the most severe cold and costs but 50 cts. For sale by E. G. Canfield & Co.

Which Was It? Bacon or Shakespeare.

The authorship of the dramatic productions attributed to the last of the above named is agitating literary circles to the very centre, but affects the practical masses far less than the momentous question, how to regain or preserve health, that essential of bodily and mental activity, business success and the "pursuit of happiness." We can throw far more light on this latter subject than the most profound Shakespearean can on the question first propounded. If the system is depleted, the nerves shaky; if indigestion or constipation bothers one at times, or constantly; if the skin is yellow and tongue furred as in biliousness; if there are premonitory signs of oncoming rheumatism or neuritis; if the kidneys are inactive—use Hostetter's Stomach Bitters, the finest recuperant of an ailing profile in beneficial and successful remedies. Remember, if malaria threatens or afflicts, that it neutralizes the poison and fortifies the system.
