The great popularity of Ayer's Pills as a cathartic is due no less to their promptness and efficacy than to their coating of sugar and freedom from any injurious effects. Children take them readily. See Ayer's Almanac for this year, just out.

Weak eyes and inflamed lids indicate an impure condition of the blood. The best remedy is Ayer's Sarsaparilla. It vitalizes the blood, regulates the secretions, and expels all scrofulous humors from the system. Try it. Price $1. Worth $5 a bottle.

The Detroit Journal desires to receive by postal card, the address of all living living male and female descendants of Revolutionary officers and soldiers of 1776, and when possible the name and state of the ancestors. Wonder if W. H Brearly, proprietor of the Detroit Journal is contemplating a raid upon the national treasury?

Language is hardly strong enough to express my admiration of the merits of Chamberlain's Cough Remedy. It is the best remedy for croup and whooping cough I have ever used. During the past eighteen years I have tried nearly all the prominent cough medicines on the market but say, and with pleasure too, that Chamberlain's Cough Remedy is the best of all. THOMAS RHODES, Bakersfield, California. For sale by G. A. Harding.

A gentleman who has a band of horses and a lot of sheep on the range in Eastern Oregon, says the latest reports he has had from that section were very favorable, and the prospect is that there will be very little if any loss of stock. The snow was blown from the south hillsides and high peaks, and horses and sheep did very well. He hopes that the Chinook has been felt up there and that trouble from snow is over and that there will be no loss of stock to speak of.

FINE STOCK.—All who have tried the 10cts. Key West and 5cts. New York cigars, sold by Fouts and Fuchs, pronounce them to be the best cigars, for the money, sold in Oregon City. They also keep for sale all kinds of nuts, including Hickory and Cocoa nuts, also a fine stock of Candies, Lemons and Oranges.

PRINTS BY ELECTRICITY.—The Albany Herald now runs its presses by electricity, which is found to be a very successful manner of applying power. Their motor is supplied with power from the Electric Light Company's plant.

THE COLOMA IS PORT.—Advices from China report the arrival of the bark Coloma after a pleasant voyage of 50 days from Astoria. Among the passengers of the vessel was Miss Neita McCown of this city. The reports state that all are well.

PROF. SPEAR.—Will give his second lecture this (Thursday) eve, instead of Friday eve as advertised. The show that had the Opera House engaged is not coming hence the above chance. The citizens are invited to this free entertainment. Those who desire to see Prof Spear concerning the application of Magnetism for the cure and protection of their bodies will find him at Livermore's hotel,

FOREST VISITORS.—Sellwood rather prides itself on being a suburb of Portland, but last Monday they were hunting deer within the city limits of that pleasant town. The deer came from the west side of the river and was soon discovered on the east bank and pursued, till it again took to the water and swam back. A hunter on the west side fired four shots at the deer while it was swimming, none of which took effect.

WILL OFFER INDUCEMENTS.—From a gentleman belonging to the Apperson farm syndicate it is learned that said company has in contemplation the offering of special inducements to a cannery to locate on their property. They state that they are in an excellently located section for a cannery, and that there are already constructed buildings of sufficient capacity, and suitably arranged for a first-class cannery. To secure the location they are willing to make a very liberal donation.

PREPARING TO BUILD.—The other day we called at the office of F. O. McCown, and found him busy consulting about plans for the east side motor line, and the most practicable route out of town. Since the granting of the franchise by the city, much has been done towards perfecting arrangements, and the promotors feel that they are getting things in pretty good shape for active operations in the early spring. Their aim and expectation now is to make it an electric line from the start.

ON THE STATE.—Mr. P. H. Jarisch and his bride were passengers on the State of California when she made the recent trip, now noted for the breaking of her shaft. The break occurred about 5 o'clock P. M. and they at first thought a rock had been struck, but the captain soon restored quiet. Mr. Jarisch writes his partner, Albert Walling, that they had intended to eat their New Year's dinner with his parents in San Jose, but that they drifted full six days after the break and did not reach 'Frisco till the Sunday following.

AN AVALANCHE.—The head miller and his assistant were sitting for a few moments last by the stove in the office, discussing some matter pertaining to the mill, when without admonitory sign a terrific noise was heard directly overhead, and at the same instant a mass of snow, ice and debris landed through the skylight in the middle of the room, knocking down the stove pipe and nearly upsetting the stove. For a moment neither moved, then each seemed to remember very suddenly that he was wanted in the mill. When the other hands in the mill called "time," the race was called a "go as you please," and declared a tie.

BREAKING ICE.—Last Friday morning the Latona started for Portland and found the river comparatively clear of ice to near Oswego, below which the river was frozen from bank to bank for a mile and a half. Captain Graham turned the wheel to the ice and broke his way through drift and formed ice solid enough to bear up a team to below the water works. While the boat was breaking its way through this mass which closed in after it, the deck hands amused themselves by running along beside the boat on the ice. It took six trips of the boat te clear the river of ice. Had it been attempted in any other way than wheel first the ice would have cut through the hull before she had run forty rods.

ELECTICAL RAT TRAP.—The point of land near the W. F. Electric Company's power house has been a favorite landing place for fishermen, who, in clearing their nets and boats, have thrown aside many worthless fish. This has attracted many rats, and the lumber piles and docking had become fairly animate with rats of all ages and sizes. So many proved a nuisance, and the employes at the power house finally decided to apply electricity to their several cases. Accordingly a series of wires were run out from the dynamos to a spot most frequented by the rats, and around a piece of meat a few inches distant was laid a net work of wires so that it was almost impossible for Sir Rat to approach the savory meat without touching two wires, thus completing the circuit which would give Mr. rat a shock sufficient to kill immediately. 'Twas fun for the boys, but death to the rats. About 20 of them turned up their toes the first evening between early dusk and dark.

ASSESSORS TO MEET.—Governor Pennoyer has issued a circular to the several assessors of this state asking them to meet in convention. The object of said convention is set forth in the following circular letter:

"Assessor of ——— county: Dear Sir—It has been suggested that a convention of the assessors of the various counties of Oregon should be held for the purpose of securing if possible a more uniform and equitable assessment of property throughout the state. Pursuant to a request made, I would suggest that such a convention should be held at Portland on Tuesday, February 11, 1890, and I would request that you should be present at such meeting. As the result of such a conference would undoubtedly tend to secure a more uniform assessment, and a more equitable taxation of property within the state, it is presumable that the county court of your county would defray the necessary expenses incurred by your attendance. This request will be sent to the assessor of each county of the state."

—Miss Josie Sinsheimer returned from Portland last week.

—Creed Stratton left last Monday to attend Bishop Scott's Academy at Portland.

—Miss Nettie Cochran is visiting friends at Pomeroy.

A HOLIDAY RIDE.—A democrat man celebrated Christmas day by taking a rail spin to Portland. It proved the customery poetical ride of editors, past russet fields and congealing puddles, past quiet Jefferson that wants and deserves a bridge, past Salem with her penitentiary and boasting journals, past Oregon City with her grand water power, big bridge and dirty-looking houses, Jos. Purdom, formerly of Albany, holding the depot down. East Portland with her pickpockets and open air depot, the ferry or bridge, Portland, with her 50,000 sinful people.—Albany Democrat.

WITH THE STOCKHOLDERS' MONEY.—Hon. D. P. Thompson says the motor line to Oregon City, in which he is interested, is to be built with the stockholders' money, and when it is done they will know to whom it belongs. Stock books will be opened before long, and parties can subscribe for stock who have the coin to put up. The road and equipmenis will cost from $250,000 to $300,000. It will be a somewhat unusual style of doing business to build a railroad with the stockholders' money, but it will have its advantages as there will be no mortgage attachments to operate. —Albany Democrat.

Clackamas Creamery.

On Monday the third annual meeting of the Clackamas creamery was held at the office of D. C. Latourette, there being 52 shares of stock voted.

A new resolution was introduced and adopted instructing the board of directors to close up the business of the corporation by selling off the property either in bulk or separate, as may seem best.

Directors were then elected for the ensuing year as follows: J. T. Apperson, E. E. Charman and E. M. Rands.

This concluded the business of the stockholders.

DIRECTORS' MEETING.

The directors having duly qualified, met and organized by the election of the following officers: E. M. Rands, president, E. E. Charman, vice president, D. C. Latourette secretary, C. H. Caufield treasurer.

The directors concluded to take immediate steps to wind up the business by selling all property and are now in shape to consider propositions for the purchase of all or part of the property.

Catarrh Can't be Cured

with LOCAL APPLICATION, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you have to take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucus surface. Hall's Catarrh Cure is no quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucus surface. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free.

Eupepsy.

This is what you ought to have, in fact, you must have it to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters if used according to directions and the use persisted in, will bring you Good Digestion and oust the demon Dyspepsia, and install instead Eupepsy. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50 cts. and $1.00 per bottle at G. A. Harding's drugstore.
