—Judge Sawyer of Columbia county was in town several days the first of the week. He is expected to move up here in July to run an abstract office.
—H. Straight's name is frequently mentioned among democrats as a suitable man for county judge. They might go farther and fare much worse.
—Mrs. W. B. Burket left yesterday for the east on a visit to her mother. Mrs. B. has been in poor health all winter and it is to be hoped that the visit will help her.
—W. R. Partlow continues to feel jubilant over his new lease of life, and will be away for at least one time he had to stand twice in the same place to cast a shadow.
—The Willamette Chist came up Tuesday morning with 30 thousand feet of lumber for Broughton and the cannery, besides a lot of telegraph poles for the Postal company.
—A very good engraving of D. P. Thomson, grand old title page of last Saturday's West Shore. Mr. Thomson is prominent as a probable successor to Governor Pennington.
—Rev. Harrington, editor of the Pacific Advocate, was in town last Friday. The doctor is a gentle gentleman, who has long known Oregon City, and he thinks the outlook here very bright.
—Frank Scott, whom Chas. Burns took before Judge Deady's court for giving whiskey to an Indian, was arraigned last Wednesday and pleaded guilty. Sentence was deferred till Judge Deady's return.
—The Isabel was engaged last Friday in picking up the lumber gathered by the Crown Paper Co. down the river. She failed to get about 30 thousand which the company had secured at the mouth of the Clackamas.
—When the locks were first examined Pete Mirath and Jack Chambers stated that the company would do well if it got them open by the first of April. Results have demonstrated that they knew something about the locks.
—A telegram from P. H. Cragin last Thursday announced his safe arrival in New York and Portland, Maine. He will bring his own family consisting of his wife and his two children, and also his brother's wife and two children. They are expected in a few days now.
—Mr. Smith says that the loggers at the pulp company's camp above Salem are getting about 12000 feet of logs into the river each day. He was up last week to contract with parties to do the loading and rafting as when they get to operating in full force they will use less than 10 thousand feet per day.
—The sociable at the Baptist church last Thursday evening was a success in every way, the church being crowded. One feature of the exercises was the giving of cards to the gentlemen, upon each of which were the names of ten ladies with each one of whom he was to talk five minutes and no longer.
—The Census of '00.—The superintendent of the United States census says that the time for taking the census will commence on June 1st and end June 30th. That will be the quickest time in which it has ever been done.
—A DEPENDLY JOE.—J. W. Draper had Messrs. Renner and Davis move his house at Canabam about two blocks down a very steep hill. They did the job in less than a week without breaking anything, although everything was left in the house.
—BAND EXCURSION.—At a business meeting of the Willamette land last week they considered the advisability of getting up an excursion for the 29th of May. They decided to get one up. The advisability of going to Salem is being considered.
—F. COMPANY'S ENTERTAINMENT.—A number of the young people of our city are preparing for an entertainment on the seventh of April, under the management of Mr. E. J. McKittrick, who is an adept in that line. An attractive feature of the program will be the farce "A Persecuted Dutchman, or John Schmidt on a Collecting Tour."
—To BUILD A PLATFORM.—To get the two large boilers for the Crown mill from the locks to the boiler house, a large platform is to be built from the walls of the locks to the boiler house. Upon this they can be moved without lowering. The platform will be permanent and used for receiving goods that come in by way of the locks.

COUNTY DIVISION.—A gentleman in from the northeast part of the county reports that another attempt will be made to divide Clackamas county at the next session of the legislature; but by cutting off a much larger slice.
AN ORES CANDIDATE.—The first candidate to make his wants known publicly is W. A. Starkweather, who announces that he wants to be county judge. He has been in politics a long time and hits the bull's eye in his announcement.
INMAN JIM'S GUESSES.—Much speculation has been rife relative to the probable time required to move the Fish building. Jim says, by one snow to Chairman's store; by two snows to the Oregon City bank; by three snows to its place. The fact is, it never ought to have been moved.
LAVISHED ON SATURDAY.—A large scow for the W. T. & L. Co. was launched from the Second street dock last Saturday evening. Joe Howell, who has had charge of the construction, says it is the best scow ever launched in the city. It is for use about the locks and basin.
THE OREGONIAN TOO.—Complaints have come from several of the postoffices in the eastern part of the county late that the Oregonian failed to reach subscribers till the next week. By letters from Highland in Saturday's Oregonian we see that the same complaint is made relative to that paper.
THE MONSIEUR.—Mr. Geo. Goodell will finish fitting up the old Whitlock store building to-day in tasty style for a saloon, which will be known by the above title. The bar and room decorations are in antique oak, and very attractive. Card rooms and boxes for private parties are also neatly fitted up.
SOLD AND MOVED.—The Commercial bank has sold the Fish building to Theo. Wygant to be stationed on the southeast corner of Eighth and Main streets. The bank had bargained with W. S. Hurst to move it for \$175 to the vacant lot adjoining the bank and they arranged to have it taken to Mr. Wygant's lot. The price paid for the building was \$300.
SEVERES HIS CONNECTION.—The friends of Rev. S. P. Davis in this city learn with sorrow that his health compels him at once to quit active work. He has, therefore, severed his connection with the Pacific Baptist and will rest for a time. He hopes with care to be able after some time to resume pastoral labor. The Baptist is probably to be published by a stock company.
BOOK GROUP.—Workmen have been for several days digging out for the foundation to E. L. Eastham's fine residence, which is to be built on the bluff overlooking the city, falls and a broad expanse of country both above and below the falls. This residence when completed, will undoubtedly surpass anything in the residence line in the city. Its cost will be about \$100,000.
EAST SIDE MIRROR LINE.—The Saltwood correspondent to the Oregonian stated on Saturday, as follows: That there seems to be very little doubt but the proposed east side motor line will be pushed to completion. Application has been made for grade stakes on Seventh street for the proposed motor line, and the surveyor has been busy establishing grade and setting stakes.
RAIL ROAD MATTERS.—D. N. Trullinger, of Viola, was in the city last Saturday, and reports surveys working up different routes in that locality with a view of determining which is the best for a north and south line of railroad. One of the points being explored is the hog back ridge up through Highland and down Cedar Creek. Owing to the Road Excision a year ago the people there are slow to endorse this line.
HOMESICKERS OF FINN.—S. W. Moss says of the flints which the workmen found while excavating for the wooden mill, that he saw in the old Abernethy building which washed away in 1861 no less than 10 great hoghead of flints all brought here by missionaries. Just what their office was in converting this land Mr. Moss never found out. He also adds that the brick for the Abernethy store were made in 1841 on a bench of land where the Eighth street dock now stands.
PUSHING THE MILL.—George Broughton was just beginning to feel himself again for the first time since the high water last Saturday morning. He was expecting Paquet and Smith's pile driver up from Portland to begin during that afternoon. His piles were nearly all out and either in the river or across and lying on the bank at the site of the mill. There will be 200 of these to drive. George intends to rustle the work right along as lumber is too valuable to make delay prosperous.
AURORA'S RESORT.—The Stationer says: Some trouble originated between Mrs. Ainsworth and John Harris of that place. The woman took a suit of clothes belonging to Harris, whereupon he accused her of theft. She returned her clothing after using her scissors on them pretty freely thus ventilating her wrath by making a number of air holes of various shapes and sizes. The case was tried in Justice Hurst's court Saturday. The result of the examination was that Mrs. Ainsworth was required to furnish \$250 bonds for her appearance at the next grand jury.
A POLITICAL ORISON.—Jim Dickey was in town last Saturday. Speaking of the representatives, some one asked if Wm. Vaughn did not desire to be one of the nominees on the democratic ticket. He replied that "Uncle Billy" only desired to run when there was no danger of being elected, and that he might possibly be on the ticket this year. It is more probable that Mr. Vaughn's fealty to the principles of democracy leads him to accept a nomination which he knows to be valueless, where others believing the case a hopeless one would refuse.
CATHOLIC SERVICES.—Rev. Hillebrand states that arrangements are made which will lighten his labors materially. Rev. Buchholzer is to be stationed at New Era and to preach at Milwaukie and other points. This will enable Father Hillebrand to devote more time to his Oregon City charge, and he has arranged to hold two morning services each Sabbath, the one at eight o'clock and the other at 10:30. Evening services consisting of vespers, sermon and benediction will begin at 7:30. German sermon every first and third Sunday in the month after eight o'clock mass.

—Hear the Fisk Jubilee Singers.
SEVENTEEN SOCIABLE.—The usual seventeen sociable will be held this week on Friday evening instead of next week, as Good Friday occurs next week.
WILL ENLARGE.—Julius Logue is planning several changes in his residence, which he intends having done as soon as lumber and builders can be procured. He will raise it adjacent to put in a furnace, and enlarge, and otherwise improve its appearance.
BY ONE BID.—There was but one bid for fencing the public square or ball ground, and that was handled in by B. F. Lion, whose figures were \$320. This is said to be reasonable, as the specifications call for cedar posts mortised for square 1/2 rails set in diagonally.
THROUGH TRAINS.—Last Tuesday, for the first time since away back in January, coaches on the O. & C. were attached to the evening train with the expectation that they would reach San Francisco. The long trains that used to pull through every day prior to the blockade are again in order. The first through train from Frisco passed yesterday afternoon.
AT THE CANNERY.—On Tuesday the big cannery was visited, and the work examined while in progress. Owing to the delay in getting lumber it is impossible to expedite building. About half of the piling absolutely needed are in place. Owing to the many delays the company has decided to get up the main building at once so as to get their machinery in and to work canning. The other buildings and dock will be added at leisure.
CROWN MILL WORK.—A visit to the Crown mill last Saturday was rewarded by witnessing a lively scene. Messrs. Rigby and Aldrich have about 120 men engaged at the stone work alone and there is no time for standing around. Every man has to keep on the jump to keep out of his neighbor's way. The work of the main building are up to their full height except at the south end where they will join to the walls of the boiler and straw houses. Extending through the center of the main basement are a series of substantial piles which are being used to get to give strength almost equal to a solid stone wall. The work is being well and carefully done.
ALL SUBSCRIBED.—Henry Willom was called to H. E. Cross, secretary of the Board of Trade, stating that the committee appointed by the citizens of Eagle Creek to build a road to Oregon City have practically completed the labor of soliciting subscription, and he wishes to know if the citizens of this place are ready to fulfill their part of the agreement? G. A. Harding at the Board of Trade meeting last Friday night voiced the sentiment of this community when he said, "The board of trade made the proposition and it intends to stand by it." The road committee here will go to work very soon and do the board's part.
SERVICES AT THE NEW CHURCH.—The Congregational church has for months been looking forward to the completion of their new house of worship as a fit time for holding a series of special revival services and have been planning for such a series. The seats for the new church have arrived and are to be set in position at once, and it is expected that the auditorium will be in readiness for services upon next Sunday. Arrangements have been made with Rev. C. H. Atkins, D. D. as superintendent of Home Missions in Oregon; to conduct a series of meetings, and he is expected to be present on next Sunday to begin them. A most cordial and earnest invitation is extended to every one to attend these services.
CONVICTED TO THERE.—So far as can be learned from the general drift of those who talk politics it is concluded that most of the old county officers will be nominated by acclamation. It sort of goes without saying in the republican party in Clackamas county that a faithful officer is worthy of re-nomination at the hands of his party. Upon this hypothesis, H. H. Johnson will be named as clerk; W. W. H. Samson as sheriff; S. B. Callif as treasurer; J. W. Noble as assessor and Alex. Thomson for school superintendent. John W. Meldrum could be named as his own successor, but he has chosen to be a candidate for another office. So far as the offices just named are concerned they seem to have a clear field, democrats were not desirous to be anxious to whisper their desire for the chance of being named to run.
ACCIDENT AT R. R. CROSSING.—On Monday as the Eugene Express was going north the U. H. T. & L. Co's truck was struck and thrown from the track at the foot of the Singer mill. Branch Tucker was taking some things up the hill for Mrs. Aldrich, and her son John was with the truck looking after the things. Just as they reached the R. R. track the train rounded the point and they hurried the team up, and crossed all right, but when a short way up the hill the team became frightened and began to back. When Tucker saw that he could not stop the team he jumped off. John Aldrich also attempted to jump, but was caught in some way and fell under the horses, which continued backing till they passed clear over him and struck the track, at which moment the train hit the truck. John Aldrich was partially stunned and his neck hurt, but escaped without serious injury. Further than that no harm resulted.
A SOUND LEGAL OPINION.—E. Baintbridge Monday Est. County Atty., Clay Co. Tex., says: "Have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. An article in Electric Bitters saved his life."
MR. D. I. WILCOXSON OF HORSE CREEK, Ky., adds a like testimony saying: "He positively believes he would have died had it not been for Electric Bitters."
This great remedy will ward off as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach Disorders stands unequalled. Price 50 cents and \$1 at G. A. Harding's Drug Store.
Melt Wits.—We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfaction results do not follow their use. These remedies have won their great popularity purely on their merits. For sale at G. A. Harding's Drug Store.

—TOMATOES! TOMATOES.—The O. C. Packing Company wants to contract for 20 acres of tomatoes this season. See notice to Farmers in business locale.
LUMBER! LUMBER!—Long short, thick or thin lumber of all grades saved by Chas. Smith at Canby delivered on cars promptly and extra cheap. J. H. Way, Agent, Oregon City.
—To those interested, Wm. A. Starkweather desires the office of county judge of Clackamas County.
W. A. STARKWEATHER.
BACKED OUT.—One of the parties bidding on the stone work for the new wooden mill cut in figures at \$2.72 per perch, and of course was the lowest bidder, but when Mr. Jacobs went to make final arrangements, he refused to stand by his figures, giving as his excuse that he was drunk at the time.
FIELD FACTS A REVENUE.—Last Thursday when the bids for the stone work on the wooden mill basement were opened they pretty essentially covered the ground from \$2.75 up to \$4.00. The figures of some of the would-be contractors may have been thrown into an old fashioned blanketing and fired out at random.
TO STAY UP.—In the wooden mill the machinery and rooms are beginning to assume their old time appearance, except that the operatives are not in their places. Many of the goods that were carried to the upper floors for safety have been returned to their places, and it is expected that the finishing room will start up next week.
SPECIAL OFFER TO YOU.—We will allow a premium of 50 cents for each new subscriber to THE OREGONIAN. That is, any old subscriber who will secure a new subscriber at two dollars a year may send \$1.50 and keep 50 cents for his trouble. The price of THE OREGONIAN is strictly two dollars, but we make this offer to pay our subscribers to make a personal effort, as we don't want them to work without pay. Will you try?
THE COUNTY JUDGESHIP.—Much more interest seems to center about this question than any other within the realm of politics. John Meldrum, the present county supervisor declines to be a candidate for re-election, preferring to be county judge. J. G. Pillsbury has consented to be a candidate and Peter Paquet is said to be a candidate. The names of C. O. Baynton of Seely, and R. Hatch, of Sandy are sometimes heard mentioned in connection with the office. W. T. Whitlock, whose name was frequently mentioned for this position is not a candidate and his friends are now talking of him very generally as the best man for the recorder.
