Hillsboro claims the honor of having as a resident, Charles Eewell, a carpenter, who was the first white child born in Washington.

Government engineers are now engaged on Snake river, sounding the stream and blasting out rocks for the purpose of making it navigable.

A company of capitalists are making preparations to work a stone quarry near Dallas. The stone is represented as being a mixed limestone and sandstone, gray, in color, susceptible of high finish, and of excellent durable qualities.

The Spokane National Bank, one of the oldest institutions in the city of Spokane Falls, closed its doors last Wednesday morning. The cause of its distress is the failure to realize on certain securities from the mining districts surrounding there.

Henry Deerhead, a freighter from Prineville, attempted suicide Wednesday evening in the east end of The Dalles. He had been gambling, lost heavily, and became despondent. The pistol ball entered his right breast and ranged downward.

Some gentlemen of Alba have made a big discovery in the shape of a coal field, about fifteen miles from Pendleton. In many places the coal is lying exposed to the air, and so far as they have dug, nothing but solid walls of coal meet them. It is an excellent burner and preparations are being made to open the mines as soon as possible.

G. W. Hunt has leased and will soon begin to operate the fifteen miles of Northern Pacific road between Hunt's Junction and Pasco. This will give the traveling public connections for points east and west on the Northern, will be better for shippers, and will enable the O. & W. T. to better accommodate local travel. A new time card is looked for.

A most distressing accident occurred at Lafayette on Saturday last. Willie Laman, a lad between thirteen and fourteen years of age, son of Samuel Laman, attempt to jump upon a flat car loaded with gravel, while the train was in motion. In doing so, he slipped and fell between the cars and six freight cars and the caboose passed over his body, severing it about the middle and mutilating it in a horrible manner.

Fourteen vessels crossed the Columbia bar yesterday laden with cargoes that would foot up close to half a million dollars. No other port on the Pacific coast except San Francisco ever made anywhere near such a splendid showing, and it stands as an indisputable evidence of the commercial supremacy of the Columbia river over any other port on the north Pacific coast.—Columbian.

Jim Hong, an intelligent Chinaman, with his queue removed, and a resident of Catlow valley, Lake county, reputed to be worth between 5,000 and 6,000 of this world's goods, last week applied to the county clerk for a license to marry Lucy Billings, of the same valley. The parents of the young lady gave their written consent, but the clerk was not allowed, says the Lakeview, Examiner under the laws of Oregon, to issue the license.

John Vernig was arrested Monday morning for brutally assaulting his wife Sunday evening. He plead 'not guilty' before the city recorder, but at the same time said he kicked the woman in self defense. The testimony of Vernig's wife and others was evidence sufficient for the defendant's conviction, and he was fined fifty dollars, in default of the payment of which the marshal lodged him in the city jail.

The first ten miles of the grade of the Rosburg & Coos Bay railway will be completed on Jan 5, 1891. Many additional men and teams are wanted at once and all who apply will be employed The first cargo of rails is now fifty eight days out from Philadelphia. The company are considering the advisability of working from both ends and if satisfactory arrangements can be made with the S. P. Co., regarding freight rates, work will be commenced from the Roseburg end very shortly.

As James Johnson, of Union, was on his way home the other evening, he saw a bright light in the house occupied by Charles Myers and family. He entered and found two children who were left alone, one in the cradle and the other setting fire to a lot of clothes and rags hung about the room. But for the prompt action of Mr. Johnson a serious atcident would have happened. company has styled the Elkhorn Motor & Railroad Company. The capital ssock is $300,000, with 300,000 shares.

Last week three tramps were lynched near Huntington, Oregon, on the Oregon Short Line, by railroad men. Four tramps boarded a freight train near Glenn's Ferry, Idaho. They were put off by a brakeman, but afterwards got on the train and overpowered the brakeman whom they threw under the train. Both his legs were broken and he died from his injuries. The report says the tramps were caught near Huntington and three of them were lynched. The fourth escaped.

Stockholders of the Single Rail and Saddle Car Company will be pleased to learn that Mr. Mahanna has filed four patents, covering thirty-one claims, and having passed inspection full patents will be issued on Wednesday, March 21st, says the La Grande Chronicle. His system is pronounced in the patent office to be the grandest hit that has been made for years in railroading. He says that the stock will sell at its face as soon as patents are issued. This system covers operation by both electricity and steam. Speed will reach 75 miles per hour and cost of construction and operation about half the present cost.

Several parties in Eugene city have recently been the victims of accidental poisoning, supposed to have been from eating head cheese. Last week the family of J. H. Wilkinson were all reported in a dangerous condition, and today it is learned that Joel Ware, formerly county clerk, and his entire family are sick with the same symptoms. They ate some meat of the same kind and from the same market as that which was supposed to have poisoned the other family. The symptons are peculiar. Some of the victims have been prostrate for two days and are yet scarcely able to rise in bed. The physicians seems to be unable to tell what the poison is.

Wyoming's Wealth.

Almost in the exact geographical centre of Wyoming is a mountain of solid hematite iron ore, more than a mile wide and over two miles in length. Besides the iron the mountain contains lignite coal enough to warm the entire world for a century, a dozen dried-up lakes of soda, where the soda is deposited to the depth of over 300 feet, some of the lakes being over 600 acres in extent. In the mounatin adjoining there is a petroleum basin larger than those of Pennsylvania and west Virginia combined. Out of some of the springs pure rectified coal oil is trickling at the rate of twenty or thirty barrels per day.

We know you will go and buy another bottle, For sale by all druggist.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill. makes the statement that she caught cold, which settled on her lungs; she she was treated for a month by her family pyrsician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was.—Free trial bottles of this Great Discovery at G. A. Harding's drug store, large bottles 50c and $1.
