GENERAL BUTLER AT NEW ORLEANS .- Genral Butler tells the following good story While he was in command at New Oreans, a native of Louisiana was observed ne day by a wag reading a stirring placard on a wall in a public street : your shirts at Moody's. The reader inquired of the wag what that meant. 'Oh,' said the joker in a solemn tone, that is one of the edicts of the tyrannical Butler.' The Louislanian remarked : 'But I don't want ! any shirts.' . Well,' said the wag, 'you'd better buy a lew. It is the safest course to comply with the order ; for Butler is a perfect despot, you know.' So the frightened Creole sought out Moody and bought a quarter dozen shirts. In due time a Paris paper arrived at New Orleans, in which the facts were narrated as proving that Butler was both tyrannical and mean-using his power to compel citizens to buy shirts of one Moody, who was undoubtedly his

POSTAL TELEGRAPH. - The Sacramento Union, in noticing Gardiner G. Hubbard's lecture on the postal telegraph system, deivered at the Senate Chamber, Saturday evening, says: "His arguments were clearly set forth, and were sufficiently numer ous and strong to convince his hearers that the change in telegraphy which he advo-cated would prove very desirable in the

The admission has more force from the fact that the Union has had all the benefits and advantages of a virtual monopoly of Renews the nutritive matter which nourishes the telegraphic facilities, being one of the California Associated Press. But the Union is now firmly built upon popular favor as an independent and able journal, and the hand of monopoly is not needed to steady and guide its fortunes.

National Revenue.

The Sacramento Union makes the followng statement :

For July, August and September-the first quarter for the present fiscal year-the receipts from internal revenue are reckoned at \$49,000,000. This would be at the rate of \$196,000,000 for the year; but, as the income tax swells the receipts during the first quarter, the estimate for the year is only \$175,000,000. It would not be snrprising, however, if this estimate were overpassed; for the increase of receipts for the last seven months must be largely credited to the vigor and honesty applied to the col- trusted to his care, and the proceeds paid over lection under Grant, Boutwell and Delano. This energetic execution of the law will be continued, and may carry the collections for the current fiscal year up to the same amount as in 1867-8, when, under the much higher taxes then applied, the internal revenue receipts were \$190,000,000. The year before they were \$205,929.474; and for the year 1865-6, they were \$309.906.961 Since edited by Mrs. Stanton. hen the reduction of 1 exes has been about \$167,000,000 a year. The better applicaion of the law ought to have prevented a corresponding reduction in receipts; but during the year 1868 9 the widsky ring and other allies of Johnson contrived to cut down the total receipts to \$166,000,000, in spite of Rollius' vain call for efficiency and bonesty in his subordinates, and notwithstanding the sudden advance of the receipts during the last four months of the year un-
