Letters have been received from Havana, stating that five Spanish war vessels have left there for New York. The gunboats have been seized and are in custody of the U.S. authorities. The

writs are made returnable on the 15th of December before Judge Blatchford, but it is thought the case will be opened immedi-

Horrible Diseases. Horrible Diseases.

How many thousands of persons, both male and female, are there, who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them for the happiness of marriage, or the enjoyment of life. In this horr'd situation, thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Ductor Gibbon, a physician, who has made pri ate diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury, or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the wellar of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of culineat physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.
