

THE CITY AND COUNTRY.

Wednesday, Jan. 5. Official.—Senator Corbett informs that the STATESMAN has been designated as one of the papers in Oregon to publish the laws of the United States.

We are under obligations to our Senators in Washington for numerous favors in the line of public documents, including a copy of the Globe, containing the proceedings in full of the present session.

We learn that the steamer Albany has been laid up in Oregon City to repair the damages sustained while on her last trip up the river. She will not be on again for as much as two weeks.

Mr. Sylvester Simpson left last evening by stage for Eugene, to deliver his lecture on "George Peabody," before the Old Fellows' Association, which is expected to come off this evening.

J. C. Cartwright, Esq., U. S. District Attorney, was in town yesterday, as we understand, on his way South upon business connected with the courts. Marshal Young will probably continue his journey South, attending to his official duties.

Days, Talk Warning.—The City Marshal, Mr. Glover, says the boys of Salem are doing too much shooting around town nights and Sundays, and that he shall be compelled to take a little trouble about it if the row continues.

The Treasury of the State has been for many months past guarded at night by Mr. John Woodbury, whose health not being good leaves this morning for San Francisco. Mr. John W. Morgan will hereafter act as guard, at night, of the State finances.

T. D. Winchester, Esq., of Eugene City, called on us last week as he passed through here, on his return from Portland, where he had been in connection with charges made against him in relation to the cutting of timber on the public lands. It is to be hoped that his journey will result in relieving the people of the Bay of trouble until the action of Congress can bring permanent relief.

A mock Legislature meets once a week at Silas school house, Waldo Hills, which the people of that vicinity attend and conduct greatly to their amusement, as a means of social enjoyment during those long winter evenings. A great deal of information is acquired by those attending and sustaining literary societies and such gatherings as the above, and they should receive encouragement in every neighborhood.

Dead.—At his residence, on French Prairie, November 30, 1869, Stanley Hughes, in the 58th year of his age. The deceased came to Oregon some time in 1853 with his family and settled in Marion county. He was a member of the Congregational Church of this place, lived a consistent and exemplary Christian, and died triumphant in the Faith of Christ. He leaves a family of five children, who mourn as we do not without hope. Funeral services were held by the Rev. O. Dickinson.

Michigan and Iowa papers please copy.

Come Home.—Major George Williams, son of E. Williams, Esq., one of our oldest citizens, has just returned to Salem, having been relieved from active duty on the staff of Gen. Crook, at his own request; intending, as we are informed, to take up his permanent residence at his old home, with no intention hereafter of resuming his active service in the army. Major Williams received his present brevet rank, at the solicitations of the officers of his old regiment, long after the war was ended, a gratifying proof of his worth and their regard. He was placed, years ago, on the retired list, as incapacitated for active service by the loss of a limb at the great conflict of Gettysburg, but has for some years been employed as staff duty by Generals commanding this District. After his recovery from the wounds received at Gettysburg, he was employed as mastering officer for Hancock's veteran corps, and distinguished the honorary-jury by proving incorruptible. His record is a good one, and he was one of the few who upheld the name of Oregon in our armies during the war. Our citizens will be pleased to learn that George will probably be "one of us" hereafter.

Council Proceedings.

SALEM, JAN. 4, 1870. The members of the Council for the year 1870, were called to order by his Honor the Mayor, at the new Council Chamber at 6 p. m. The oath of office was administered by Recorder Thompson, and taken and endorsed by Mayor L. S. Scott, and Aldermen Bridges, Brown, Skiff, Starkey, Wade, Williams and Wright, Alderman Skelley being absent. The majority of the Council to procure a room for the Council, reported that they had rented Room No. 6 in Mr. T. M. Patton's building, at \$100 per annum. Report adopted.

A petition for a sidewalk on the north side of State street, from the east side of Kad's lot to Mill street. Referred to the Committee on streets. The Council then proceeded to the election of officers with the following result: City Attorney, J. N. Knight; Street Commissioner, W. S. Barker; City Surveyor, C. S. Woodworth.

Mr. McManus came before the Council and stated that in reference to the straightening of Front street, he and two others of the property holders would sell the front of their lots for \$65 each; two others were not represented. Referred to the Committee on Streets.

A number of bills were read, and those certified to by officers of the city, ordered paid; the others were referred to the Finance Committee.

On motion the Marshal was instructed to proceed to enforce payment of the delinquent tax according to law.

Report of Marshal referred to Finance Committee. Report of City Treasurer also referred to Finance Committee.

The report of Street Commissioner shows the total amount laid out on street improvements \$2,670. Report received and placed on file, and ordered that the delinquent alley tax be turned over to the City Marshal.

On motion a committee were appointed to advertise for and receive proposals to clear the stumps from Marion Square.

Aljournal.

Thursday, Jan. 6. Jason L. Royal says he is ready to mend as well as to sell anything in his line.

Dr. Chance is out again with something new. Read his few remarks concerning "General Complaints" in our advertising columns.

Complimentary.—The Oregon Medical and Surgical Reporter receives the following notice from the California Medical Gazette: "If merit were always appreciated, we might predict, with certainty, a large circulation for our contemporary journal, from the highly scientific and practical nature of its original contributions."

Aurors appeared on evening of Feb. 23. Eclipse of the sun Aug. 7th.

William Davidson, of Portland, the collecting agent, has been obliged to increase his fee, and advertise that Mr. W. F. Brown is his authorized agent, while Davidson is agent for so many others.

Professor Francis says that he found so many friends at his farewell banquet that he concluded to stay awhile, and further more, that as he has lost money at the banquet, he is compelled to stay to get even; so he advertised today for pupils in the study of music.

Supervisor.—For several years past our city has had very efficient Street Commissioners and Supervisors, and the work done shows their success. Mr. Mathew, who served last year, accomplished a great deal and rendered entire satisfaction. He is succeeded by W. S. Barker, who was elected by the new Council, and will carry on the work of street improvement with judgment, and devote his entire attention to his official duties. The appointment is received with general satisfaction.

An Incident.—Tuesday evening, just after the new Council had been sworn in, and as the Mayor was proceeding with the regular order of business, Mr. Williams was found standing in the middle of the floor with something in his hand, which afterwards proved to be a splendid inkstand. In a neat little speech he presented it to the Mayor, as a mark of their esteem and their appreciation of his services as presiding officer during the past year. His Honor briefly replied that he had no speech to make, but if by his course during the past year he had been satisfactory to the Council he was content, but the inkstand he would certainly accept with pleasure and with pride.

Presentation and Speech.—On Tuesday evening, some time after Mayor Scott was assaulted with the inkstand, he got even on the outgoing Marshal, Chapman. Calling Chapman up, His Honor produced a large and splendid gold pen and case, and said addressed the culprit: "Mr. Marshall, the pen which you presented to me was content, but the inkstand he would certainly accept with pleasure and with pride."

Confidential Quarters.—The City Council made a good meal at a quiet dinner on State street, took a walk on the river, and the committee did themselves credit in fitting up a Council Chamber, of which one need be ashamed. The new room is No. 6 in Patton's brick, and is furnished with desks and chairs for the members; the floor is well carpeted, and the cold weather should chill the ardor of the incoming Council, the new "Pride" parlor stove was blazing away at a furious rate when the members assembled last evening. The desks were of maple, neat and substantially made, at the establishment of Parmenter & Babcock; the chairs were from the same place; the pride was from Anderson & Brown's, and cost \$15. The total cost of fitting up the room is about \$200, and the money is evidently well invested.

Five.—The boys did another kick yesterday afternoon, though he kept them in practice and at the same time demonstrate that we could do without the Department. About four o'clock Mrs. Williams' family, on State street, took fire from a stove pipe in Mr. Lohdell's gallery, as we are informed, and the roof was on fire in a hundred places. The companies were promptly on the ground, No. 2 getting the first water, and the fire was squelched just in time to save several thousand dollars' worth of property. The property was insured, and it is difficult to estimate, as some damage was done by fire, some by water and some by axes, but none that was avoidable as far as we could see. The offices in that building were emptied pretty quickly and not without reason, for the row would burn like matches if it ever got beyond way.

"Bitter Beer."—A small steed and small souled buccolic contemporary, that has been in the habit of stealing our items to make his columns interesting, has found relief in refusing to "steal" any more money bags. We don't see any room for argument, for if the buccolic fellow, hereafter, wants to be a toady, there is no law against it, and if the other party is disposed to run to suit itself and suit the public, who has a right to complain? The buccolic gent had better save his brains to run his job office, and his type to help the coming Democratic daily. We might go further, and ask the State Agricultural Society if it is not afraid that some type we not of will be so demoralized, by publishing Democratic fictions, that it cannot be depended on for telling plain agricultural facts, but will defer that until another year.

Metamorphosis.—We have received Mr. Thompson's weather record for December, 1869, from which it appears that there were 9 clear days, 3 cloudy, 6 foggy and 13 rainy. The 1st was clear, 2d foggy, 3d clear, 4th and 5th fog, 6th to 12th inclusive rainy, 13th clear, 14th and 15th fog, 16th rainy, 17th to 21st clear, 22d cloudy, 23d to 27th rainy, 28th and 29th clear, 30th fog, 31st clear. Thunder on the 10th during the night in the south and lightning in the north at night. The heaviest rainfall was on the 24th, when 0.90 inches fell; total rainfall 4.85 inches. Mean temperature for the month 37°; highest mean temperature 49° on the 12th; lowest mean temperature 24° on the 21st. Compared with December, 1868, there were in that month 18 rainy, 8 clear and 5 cloudy days; mean temperature 40°, highest 47°, lowest 32°.

This abstract is from a record of observations made at Eola, which is a locality a little above the line of morning fog, and perhaps a trifle warmer than the lower lands, as we see that the snow which fell in Washington to the depth of an inch and a half on the 26th, and in Yamhill half an inch, did not put in an appearance in Polk, nor did it in this part of Marion. The record shows that no snow has fallen during the year 1869 at that place; in the same period there were 201 clear days, 53 cloudy, and 111 rainy days; the highest mean temperature was 68°, in June, and the lowest 37°, in December. Mr. Pearce will continue to furnish our readers with interesting facts from his record.
