Owns Up .- Open confession is said to be good for the soul, and so the editor of the Marysville Appeal must feel relieved after carrying his burden seventeen years alone .-He says in a late editorial in an argument on some local question :

"We believe flour reached the high figure of \$32 per barrel, in the fall of 1852, but remained at that price but a few weeks. Scarcity was the real cause, but the speculators were not slow in taking advantage of the fact .-At that time we were an employe in a "flour mill" in Sun Francisco. "Our house" bought condemned government flour, which was sour, wormy and bitter, and after mixing it with fresh Oregon flour, resacked it, about half and half. We made two qualities. The "straight government" flour was called "China," because it was sold for Chinese consumption." That's what has been the matter with Oregon flour in the markets of the world.

Virginia is admitted to the representation in Congress from which she voluntarily withdrew nine years ago. We welcome our "wayward sister," but what think our Democratic brethren of the press who have been so badly cut up because the mother of the Presidents was not in the Union? Every Democrat in Congress voted to keep her out in the cold. No doubt they are sorry to be obliged to stop howling about it And what of the Democratic voters of Oregon who thought their Representative voted to deprive a sovereign State of her representation in Congress? Sympathetic fellows, they are.

New York divorce lawyers can do pretty well without going to Indiana. A case is now in the Supreme court wherein it appears, that Eugene A. It is proposed in Congress to give a pension to Mrs. Lincoln, the only woman in the world whose husband ever died for this country and the country did not provide for his family. And now we can expect a grand economical howl from those journalists who devote their energies to fighting dead men and their widows and orphans.

WANTS MORE .- Mr. Henley, of the Call. fornia Legislature, who kept out of dan ger during the "late unpleasantness," is a candidate for coercion. He wants the world to know that California "would not submit to the Fifteenth Amendment, if it was adopted." Wonder what he will do
